SECRETARY OF WAR ADDRESSES MEETING

Pays Tribute to Business Men of the Country

Secretary Baker Praises National Army and Declares the Young Men Composing It are Surrounded by Safe Conditions—"Sick Rate Will be Very Low."

Harrisburg, Pa., Oct. 8.—Secretary of War Baker addressing the annual meeting of the Harrisburg chamber of commerce tonight declared that the manner in which the business men of the country had gathered to the support of the national government in its supreme emergency of war was making "a stronger nation, a greater democracy and a greater hope for mankind." The secretary said that he wanted the business men to know that he was proud to pay the tribute and that as a result the nation would become a wonderful world factor for peace after the war.

"I believe that under the example of America, we will be able to make such arrangements that war will give place to the virtues of peace for many years to come," said the secretary. He praised congress for creation of the council of national defense which he said had prepared the country's resources and said that when the fateful hour struck the business men, voluntarily and in mass assembled to give their best. This he said would clear overnight existing distrust between business and government. Reviewing the organization of the National Army, Mr. Baker said that it had been done by a nation totally unaccustomed to war but which had subjected itself to a selective draft and had diverted its industries into many unaccustomed lines of production.

"Even Germany was never able to do this," he declared.

The young men in the army, Mr. Baker said, would be surrounded by safer conditions than ever known by adopting "the wholesome spirit of the youth of America."

"We are making a wonderful army, we are making it by American processes; we are going to have a very, very low sick rate," said the secretary. He said that what had been done had been accomplished through hard work and mobilization of American inventive and business genius. The speaker declared there was no doubt America was next on the German program and said "we must win this war or admit democracy a failure."

In making a plea for co-ordination of financial resources such as there has been of business, Mr. Baker said the country must buy of liberty bonds until it hurts.

FEW COMPLAINTS OF COAL SHORTAGE

WASHINGTON, Oct. 8.—Few specific complaints of coal shortage have been reported from any part of the country in spite of the recent cold weather. Fuel Administrator Garfield said today. The administrator explained that some complaints of coal shortage came from persons whose orders are not filled promptly because of the great demand at this time of the year and who are unnecessarily worried as a result.

U. S. MAY SOON FACE SCARCITY OF MINERALS

ST. LOUIS, Oct. 8.—The United States soon will face a grave scarcity of certain minerals necessary to the successful conduct of the war unless the vast mineral deposits of the country are developed said W. G. Westervelt of New York, chairman of the United States war minerals board in an address today before the American Institute of Mining Engineers in session here.

ABANDON PLANS FOR STATE CONFERENCE

SIOUX FALLS, S. D., Oct. 8.—Under a renewed threat of state officials today to prevent forcibly the meetings of pacifist organizations in South Dakota, leaders of the People's Council of America for Democracy and Peace, precipitately abandoned plans for holding a state conference here Wednesday.

SECOND LIBERTY BONDS ARE SELLING SLOWLY

NEW YORK, Oct. 8.—Necessity of redoubled effort on the part of the various agencies engaged in the second Liberty loan campaign in favor of the allotment for the New York Federal Reserve district is not to fall short, was emphasized by the committee tonight when it was announced that the total thus far reported for the district was only \$216,350,000.

WIDE DIFFERENCES IN BREAD PRICES

WASHINGTON, Oct. 8.—Consumers reports to the food administration from fifty two cities and towns in all parts of the country show wide differences in bread prices, the lowest price reported was from Pleasantville, N. J., where a sixteen ounce loaf sells for six cents. The same loaf in other parts of the country sells for from eight to twelve cents.

WILL REINSTATE STRIKING CAR MEN

MINNEAPOLIS, Minn., Oct. 8.—The Twin City Rapid Transit Company today offered to reinstate striking car men who apply for their old positions. About 300 union motormen and conductors in St. Paul and Minneapolis walked out early Saturday.

MAY INVESTIGATE MILLIONAIRES DEATH

Attorney for Barker Believes Death Might Have Come From Hands of Assassin.

Peoria, Ill., Oct. 8.—Chief of Police Rhoades today tendered the services of the entire detective force to Coroner W. B. Elliott if he deemed it necessary for an investigation into the death of Jesse Barker, millionaire banker on the theory of murder instead of suicide. Barker's body was found in the bath room of his home last night with a bullet thru the brain. Coroner Elliott is convinced it was a case of suicide in spite of the claims of Joseph Well, attorney for the dead man that death might have come from the hands of an assassin. The inquest was adjourned to tomorrow for purposes of investigation.

Barker's wife, who was suing for a divorce arrived in the city from Chicago early today and is at the home of Mrs. M. L. Frederick, under the care of a physician, who refuses to permit her to be seen.

PERSHING AND BLISS COMMISSIONED GENERALS

President Wilson Signs Necessary Papers Monday

General Bliss is Directing Head of the Entire Army Organization — New Grade Carries Salary of \$10,000 a Year.

Washington, Oct. 8.—President Wilson today signed commissions as generals for Major General Tasker H. Bliss, army chief of staff and Major General John J. Pershing, commanding the American forces in France. The two officers have equal rank, General Bliss takes precedence by virtue of his position as the directing head of the entire army organization. Congress revived the rank of general for the period of war largely in order to avoid embarrassment to General Pershing in dealing with officers of higher rank commanding the allied armies on the western front. The new grades carries a salary of \$10,000 a year an increase of \$2,000 over the pay of a major general.

The grade of lieutenant general also was revived by congress the rank to be given commanders of army corps, but it was stated authoritatively at the war department today that there is no intention of creating any lieutenant generals or army corps in the United States at this time as the divisional training system will be continued. An army corps under the new army organization based on developments of trench warfare is composed of three or more divisions.

PREPARING FIVE CENT LOAF OF WAR BREAD

PHILADELPHIA, Pa., Oct. 8.—Philadelphia is to be the scene of an experiment by Herbert C. Hoover, national food administrator in the preparation of a five cent loaf of war bread. It is also proposed to establish a standardized method of mixing and making the bread. The new war loaf will, it is said, effect a saving of sugar, lard and milk and yet be wholesome.

CONTRACTS FOR MORE DESTROYERS

WASHINGTON, Oct. 8.—Secretary Daniels had before him today contracts for additional destroyers already arranged tentatively with the builders. The bill appropriating \$350,000,000 for their construction, for financing plant additions to carry out the program was put thru in the last hours of the session of congress.

RESIGNATIONS REPORTS ARE DECLARED UNTRUE

WASHINGTON, Oct. 8.—Reports of wholesale resignations of members of the committees of the council of defense were declared untrue today by Director Gifford. Twenty-two of the 350 members, he said, have resigned but most of them are serving as advisors, as their resignations have not been accepted.

RUSSIA PARALYZED BY RAILWAY STRIKE

PETROGRAD, Oct. 8.—The general railway strike, order which promises a complete tieup of traffic except sanitary and military trains, became effective last night. All passenger trains scheduled to leave Petrograd today except for the front, were abandoned.

FATHER OF FAMOUS SPORT WRITER DIES

NASHVILLE, Tenn., Oct. 8.—Bolling H. Rice, Sr., 62, father of Grantland Rice, a New York newspaper man, died today at his home here.

DIVINE SARAH GODMOTHER

Chicago, Oct. 8.—Madame Sarah Bernhardt today accepted the title of Godmother to the Children of America offered her at the meeting of the Children's Patriotic League which she addressed.

"Today a big family comes to the unhappy children of France and Belgium with hands full of gifts," she said. "Those gifts will put the light of joy into eyes which too early knew the bitterness of tears. It is the beginning of an admirable fraternity."

RAIN PUTS CHECK ON INFANTRY ACTIONS

Movements On Large Scale Im- possible for Present

Artillery Action Only Thing Reported — Coalition Government May Be Formed in Russia.

Altho the sun shone again Monday in Flanders, the rain had rendered the territory east of the Passchendaele-Gheluvelt ridge a veritable bog, making infantry actions on a large scale impossible for the present.

There have been, however, a number of small actions in the nature of trench raids on Reconnoissances and the big guns of the British and Germans are keeping up the mighty duel virtually without pause. Likewise in the Italian-Austro sector artillery action is the only thing reported.

The imperial chancellor has gone to headquarters for conferences with Emperor William and Field Marshal Von Hindenburg.

The political factions in Russia at last have come into agreement on points which have been in dispute between them and the government over the forming of a cabinet and it is announced that a coalition government will be immediately instituted. The country, however, now is threatened with a general railway strike which was partly put into effect at midnight Sunday notwithstanding a threat that the men taking part in it would be charged with treason.

ANIMAL PELTS SELL HIGH AT ST. LOUIS

Total of 500 Silver Fox Skins Bring \$120,000.

St. Louis, Mo., Oct. 8.—The first day's sale of the \$2,000,000 auction of 2,261,601 skins here totaled \$500,000. Two hundred buyers are here but war has cut down the number of foreign buyers many of the foreign firms making their purchases thru brokers.

The furs of fox today include silver and blue foxes, seals, sable, chinchillas and seal from Alaska and South America.

A total of 500 silver fox pelts brought \$120,000, the lowest bid for a silver fox set being \$100, and the highest \$860. A lot of 567 blue fox pelts sold of \$35,000. Among the offerings will be two perfect black fox skins, the like of which, experts say, have not been seen here for eight years. They were brought here by F. Vodka from Yukon territory.

NEGRO OFFICERS TO GET COMMISSIONS

WASHINGTON, Oct. 8.—Army officers left here today with commissions to be presented to successful candidates at the negro officers' training camp at Des Moines, Ia., who are completing a four-month course of instruction.

Officers familiar with details believe it will provide efficient use of the troops and prove entirely satisfactory in all sections of the country.

U. S. PATROL VESSEL HITS ITALIAN U-BOAT

One Officer and One Enlisted Man Killed

Italian Submarine is Reported to Have Failed to Answer Recognition Signals.

Washington, Oct. 8.—Vice-Admiral Sims cabled the navy department today that an American patrol vessel, on duty at night in the war zone had fired on an Italian submarine which failed to answer recognition signals, killing one officer and one enlisted man.

Secretary Daniels at once sent a message to the Italian ministry of marine, expressing the deepest regret over the unfortunate occurrence and tendering his with the American navy's sympathy for the loss of life.

Landed Shot in Coning Tower. While details of the incident are still unknown here the fact that an officer and an enlisted man were killed indicates that the American gunners landed a shot in the submarine's coning tower the victims being the officer at the periscope and the bluejacket at the wheel.

SAMMIES WILL NOT MISS THEIR TURKEY

Consignment of 154,000 Pounds Already on Way to France.

Chicago, Oct. 8.—The United States soldiers and sailors now in service are not to miss their Thanksgiving turkey dinner is evidenced by an announcement today that Chicago poultry commission men tomorrow will make bids on 1,000,000 pounds of the birds that will be required to feed the army at home and in the Philippines. A consignment of 154,000 pounds of turkey is said to be already on the way to the soldiers in France.

FIRST MOTOR TRUCK FOR U. S. COMPLETED

LIMA, O., Oct. 8.—The first liberty motor truck for the United States army, the product of the greatest motor truck designers of the country and the combined genius of twelve motor truck plants and sixty two automobile parts factories was completed here today at a local manufacturing plant. The standardized machine of which 35,000 copies will be turned out in the first half of 1918 for the army, is said to represent the perfection of automobile truck development. Its motor power is derived from the new liberty motor, recently perfected at Washington by the war department experts.

UNMATURED CORN REPORTED DAMAGED

SPRINGFIELD, Ill., Oct. 8.—Killing frosts in central and northern Illinois did considerable damage to un-matured corn, reports to the federal weather bureau today indicated. No estimate of the proportion of the crop affected was available, altho it was said the bulk of the corn in Illinois has passed the danger mark before the frosts of last night and Saturday night.

KILLING FROST IN STATE OF NEBRASKA

FLOODS IN CHINA ARE NOT ABATING

Peking, Oct. 8.—Floods in north China are not abating and the situation is more serious. The American Red Cross and the American Asiatic association have passed resolutions that all their funds and future energies shall be devoted to flood relief purposes. It is expected that the American infantry stationed in Tien Tsin will be removed to eking owing to the unsanitary conditions in Tien Tsin.

The government's relief institutions are being overtaxed. There is no hope of the water subsiding before winter which means that half a million destitute persons must be fed, clothed and housed by the government.

CRIMINAL REPORTED TO HAVE CONFESSED

Dick Carter Alleged to Have Turned State's Evidence

Accused and Held as Accomplice of Piersol, Who is Charged with Having Stolen Baby Keets, Carter Admits Having Driven to Keets Home

Marshfield, Mo., Oct. 8.—J. Holland Keet, father of the kidnapped baby, Lloyd Keet, whose body was found in a well after the infant was abducted from its parents' home at Springfield, Mo., will take the stand as the first witness for the state in the trial of Claude Piersol, accused abductor of the baby, tomorrow afternoon in circuit court here. He will be followed by the mother of the baby and the two nurses who were asleep in the room from which the child was stolen on May 30.

A jury will be selected tomorrow morning and opening statements probably will take until noon.

The outstanding feature at the trial today was the purported confession of Dick Carter, alleged accomplice of Piersol. He is said to have turned state's evidence and admitted driving to the Keet home with Piersol as early as last March. Attorney O. J. Page, and other lawyers for the defense emphatically denied that Carter had made a confession. That Piersol and Carter recently had a quarrel in the Marshfield jail is known positively, they said. Carter has already made a signed confession to his part in the plot to kidnap C. A. Clement, wealthy jeweler.

AUGUST EXPORTS SHOW INCREASE

Great Bulk of Shipments Went to The Allies.

Washington, Oct. 8.—August exports of wheat, corn and mineral oils decreased to a marked extent while exports of oats doubled and fresh beef recorded a 500 per cent increase, the department of commerce announced today. The great bulk of shipments went to the Allies. Breadstuffs to the value of \$45,000,000 were exported during the month, an increase of \$10,000,000 over a year ago. Cotton, leading the list in value recorded a rise of \$33,000,000 to \$63,000,000. Five million bushels of wheat were exported as against 11,000,000 bushels a year ago. Meat and dairy products worth \$24,500,000 were exported, a \$5,000,000 increase.

ABANDON JAIL SENTENCE POLICY

MEN CHARGED WITH NEGRO'S MURDER

Jury to Try Switchman and Youth for Slaying May be Completed To- day.

Belleville, Ill., Oct. 8.—Four jurors had been accepted to try Henry Wood, a switchman, and Leo Keane, 17 years old, charged with the murder of Scott Clark, a negro, during the East St. Louis race riots, when the circuit adjourned tonight. It is thought that the jury will be completed either tomorrow or Wednesday. Race prejudice, which was the chief concern of the defense in selecting the jury which convicted ten of thirteen negroes charged with murder, the first of the riot trials, figured largely in the questioning of the talesmen today by the state.

Several talesmen were peremptorily challenged when they said they could not convict a white man for killing a negro under the circumstances surrounding the East St. Louis race riots.

Judge Crow today formally sentenced the ten negroes convicted yesterday of the murder of Detective Coppedge in East St. Louis on the morning of July 2 to fourteen years in the penitentiary.

Attorneys for the negroes have not yet filed a notice of appeal.

PRINCIPAL FARM CROPS SHOW SOME LOSSES

Corn Shows Reduction of 36- 000,000 Bushels Since Sept.

Spring Wheat, Barley, Buckwheat, Potatoes, Apples, Beets and Other Crops Will Be Shorter Than Expected.

Washington, Oct. 8.—Considerable losses were recorded in some of the country's principal farm crops as a result of conditions in September but today's government report repeated there would be record crops of corn, oats, rye, white and sweet potatoes, tobacco and beans.

The loss was heaviest in corn, which showed a reduction of more than 36,000,000 bushels since September 1. Other losses were spring wheat 7,909,000 bushels; barley, 2,180,000 bushels; buckwheat, 2,331,000 bushels; white potatoes, 8,985,000 bushels; sweet potatoes, 907,000 bushels; apples, 537,000 bushels; sugar beets, 113,000 tons; kaffirs, 4,329,000 bushels and beans, 4,155,000 bushels.

Some crops, however, showed improved indications, especially oats, with a gain of 47,332,000 bushels, making it a record crop of 1,589,714,000 bushels or 31,000,000 bushels more than that of 1915.

Other gains were rice, 1,090,000 bushels and tobacco, 21,837,000 pounds.

LEAGUE FOR NATIONAL UNITY IS FORMED

Organization Has Endorsement of President Wilson

National Executive Emphasizes Need for Unity of American Thought and Opinion—Leaders Welcomed at White House.

Washington, Oct. 8.—A movement to lead and express public opinion on the war was inaugurated today by formation of the league for National Unity, representing church, political, labor, agricultural and industrial organizations to which President Wilson gave his endorsement in an address emphasizing the need for team play by the forces of American thought and opinion.

Welcoming the leaders of the movement at the White House in a brief speech the president expressed the belief that American public opinion, altho understanding the war causes and principles needs the guidance to remember that the war should end only when Germany is beaten and Germany's rule of autocracy and might are superseded by the ideals of democracy.

This is the issue which the American people should always keep in mind, the president said, in order to avoid being misled in by-ways of thought and the resultant scattering of the force of public opinion.

Talk of early peace before Germany is defeated is one of the evidences of misdirected thought, he suggested, and should not cloud the vision of those who understand that the United States is fighting now for the same ideals of democracy and freedom that have always actuated the nation.

The president gave warning that it should not be forgotten that German success would mean not only prevention of the spread of democracy, but possibly the suppression of that already existing.

The league, which will have headquarters in New York, chose as honorary chairman, Cardinal Gibbons, and Dr. Frank Mason North, president of the federation council of churches; Theodore N. Vail, president of the American Telephone & Telegraph company is active chairman, with Samuel Gompers, president of the American Federation of Labor, Charles Barrett, president of the Farmers' Educational and Co-operative Union and George Pope, president of the National Association of Manufacturers as vice-chairman.

meant women are more flighty?

WHEAT VS CORN PRODUCTS.

It is still difficult to understand,
considered in a local way, just what
benefit is to accrue from continually
urging people to abstain from wheat
flour products and use those made
from corn. True, an enormous corn
crop has been produced, but it is
expected to fall millions of bushels
short of the government's earlier es-
timate and the price now offered is
higher by comparison than that for
wheat. If the supply of wheat and
corn proves sufficient to feed both
the U. S. and the allies, by due
economy in the use of both grains,
it doesn't seem to make so very
much difference in which one of the
two countries the wheat or corn
is consumed.

LOSING CENTURIES.

That figures can be handled in
a way to make them terribly sig-
nificant is proven in the case of a New
York industrial commission. A rep-
resentative of that board has been
busy with his pencil and has figured
out that more than 306 centuries of
working time were lost because of
strikes in the Empire state from Oct.
1, 1915 to June 30, 1916. During
the period mentioned there were
328 strikes reported, involving di-
rectly 222,325 persons. These per-
sons with thousands of others indi-
rectly affected, lost a total of 9,581-
143 days. These figures should be
respectfully called to the attention
of Samuel Gompers, whose business
it is to see that no centuries are lost
through strikes during this year of the
war.

THE NEED FOR FARM WORKERS.

The acute lack of farm workers
has caused the labor commissioner
of Missouri to issue a call for help
in order to gather the corn crop in
his state and to sow wheat. Accord-
ing to the commissioner the situa-
tion calls for prompt and patriotic
action. Some men may not be fi-
nancially able to invest in liberty loan
bonds but if physically qualified they
can do patriotic work in Missouri

and at the same time secure wages
double the amount usually paid for
such work.

The situation is not peculiar to
Missouri but is true even in a more
marked way in Illinois, for of course
the crops are larger in this state
and the harvest will be greater.

RED CROSS HAS GROWN.

(From Farm and Fireside.)
Two years ago, in 1915, there
were 25,000 members in the Red
Cross, and resources were compara-
tively small. Today there are 3-
000,000 members, and the cash capi-
tal of this vast organization is
\$100,000,000. Within two more
years we expect the membership to
increase to 10,000,000 and the money
we receive will be tripled.

If you can imagine a piece of work
bigger than that of an express com-
pany, a telegraph company of a tele-
phone company which grew to ten
times its original size in the space of
three months, you will know the kind
of a job that is facing the Red Cross
Up until March of this year the Red
Cross had forty workers in the new
headquarters at Washington; now
there are 730. Mail streams into
the offices every day from all over
the world and none of the letters can
be dismissed with a brief note. They
all require pages of thoughtful ad-
vice in response. The demands from
the front are increasing daily, and
they must be met somehow.

THE PEOPLE UNDERSTAND.

In talking about the sale of lib-
erty bonds, it is entirely possible that
some corporations will not buy as
they had been permitted to take prof-
its without limitation, and be free
from excess taxes. But it is also true
that among the "plain people" of the
country at this time there will be
found a much larger number of pur-
chasers than was true at the time of
the first liberty loan. The reason can
be found in the fact that today much
more than was true two months ago
the people are realizing that the U.
S. is really at war. The fact that
hundreds of thousands of young men
have been drawn from the American
homes and sent to central training
camps is in part responsible for this
change.

Take it here in Morgan county.
Since between 80 and 90 young men
have gone to Camp Taylor, isn't it
true that the citizens of the county
have acquired a much clearer un-
derstanding of the meaning of the
war than they had in earlier days?
The war has touched the families
of these young men and their friends
in an intimate way that was not true
before. They read more and they
think more about the war, and as
a natural result there has come that
clearer understanding of conditions
as they are.

THOSE LIBERTY BONDS.

The Bachs financial review, makes
a statement which no doubt is true
and has a bearing on the liberty loan
situation. This review suggests that
because of price fixing by the govern-
ment, and furthermore because of
the excess profit tax, that "big busi-
ness" will not share so largely in

this loan as was true in the one a
few months since. Since profits are
to be held down by law to a point
much nearer the normal than has
been true for the past few years,
and since the government is to take
a toll of excess profits, it is not un-
reasonable to suppose that business
firms thus affected will naturally not
invest so largely in the purchase of
these bonds.

But notwithstanding this plaintive
reference on the part of the financial
writer quoted, it is interesting to
note that the reviewer credits big
business with sincere loyalty, consid-
ers the bonds a splendid investment
and goes on to say:

"There never was a public under-
taking so full of inducements for
participation as that which now is
offered to the nation in the way of
a Government loan. Absolute safety
and unusual interest terms for such
a security are not the only induc-
ements. Preservation of our existence
as a nation is one of the impelling
forces to make every citizen do his
best. The thoughtless would per-
haps fail to see the force of this ar-
gument, but he must be made to
know that the ultimate fate of the
world depends now absolutely on
America. The Allies have been fight-
ing a wild beast for three years.
There is a good proportion of insani-
ty in the attitude of Germany. Un-
able to win its unholy object of beat-
ing the world into subjection, it has
resolved to carry down its enemies
with it—if it, itself, must be de-
stroyed. Without the aid of the United
States this destruction would, in
the end, have been wrought in the
allied countries, and if by any chance
the Hohenzollerns had been left in
power, the United States, without
preparation, would have become a
victim to the lust for power and a
target for all the brutal Teutonic
savagery which daily grows more
violent."

MODERN MEDICINE OF FRENCH ORIGIN.

Modern medicine has been wholly
founded on the results of the inves-
tigations of Pasteur of France who
discovered the existence of the mi-
croscopic world of living bacteria
in water, air and earth. These
bacteria are the natural chemists
of the world, without which higher
multicellular life could not exist.
Some of these bacteria he showed to
be the cause of specific diseases of
plants, animals, and man. He de-
veloped serums and vaccines for the
cure of disease, and antiseptics for
the control and destruction of bac-
teria and the prevention of wound
infection. Lister of England through
Pasteur's discoveries laid the founda-
tion for modern surgery. The
value of his discoveries, curiously
enough, was at first more appre-
ciated in Germany than in England.
Napoleon, before the time of Pas-
teur, appreciated the necessity for
the preservation of food for his in-
vading armies and by giving awards
for discoveries empirically developed
methods of preservation for certain
foods by heating and sealing.
To the French, then, we owe the
development of modern medicine
and the knowledge of the cause
and prevention of disease, a knowl-
edge which now controls the fevers,
plagues, and infections that for-
merly decimated mankind, espe-
cially the destruction of armies. Be-
cause of these discoveries our sol-
diers are immunized by serums and
vaccines against typhoid and paraty-
phoid fever before going into
service. The ravages of tetanus
among the injured is checked by
serum. By making effective the
laws of sanitation and hygiene the
health of the soldier is maintained.

Rippling Rhymes By WALT MASON

OCTOBER DAYS

The cool October is sad and so-
ber, she makes me have a tear; while
leaves are falling she is recalling
the passing of the year. I hear her say-
ing, "The year's decaying, the flow-
ers are dead and gone, the rose and
lily, the nights are chilly and frost is
in the lawn." I hear her sighing,
"The year is dying, and man must
blow his roll, must make a payment
on winter's raiment, and slake that
nick-named coal." I hear her call-
ing, "The rain is falling and freezing
on the moor; cold winds are heading
this way; the sledging will be tough
for the poor." Her voice is dismal;
a grief abyssal is in her mildest
tones, and, never resting, she keeps
suggesting decay and mouldy bones.
My life is sober; it's reached Octo-
ber, it's autumn soon will pass; the
winds are saying, while round me
playing, "You're next! All flesh is
grass!" My winter's coming when
I'll quit thrumming a lyre for a re-
ward; in all my fooling and festive
doodling there is a minor chord.

WINCHESTER WOMEN HEARD FINE PROGRAM

Mrs. Mabel Morrill of Havana Gave
Excellent Selections of Folk Songs
—Miss Beebe Told of Registration
Work—Scott County News Notes.

Winchester, Oct. 8.—The assem-
bly of the Woman's club met at the
grade building Monday afternoon at
2 o'clock and enjoyed an entertain-
ment given by Mrs. Mabel N. Mor-
rill of Havana. Mrs. Morrill gave a
program of folk songs. The open-
ing number was a group of Russian
songs, followed by Greek, Irish and
Indian songs and a group of Ameri-
can songs was the final number on
the program. Mrs. Morrill's able ac-
companied was Mrs. Lyle Anno of
Havana, and intermingled with the
songs were a series of folk dances.
Pupils of the high school remained
for the afternoon program, which
was artistically given and much en-
joyed by those present. Mrs. Mor-
rill also talked informally on folk
dances and music. Mrs. M. E. Mor-
rill accompanied them from Havana
and the three were guests at the
home of Mr. and Mrs. C. W. Banes.
Mrs. M. E. Morrill is a sister of Mr.
Banes.

Miss Beebe, who is interesting wo-
men of the state in the registration
work under the direction of the Illi-
nois branch of the National Council
of Defense, was present and made an
interesting talk.

Mrs. Frank Heiman and daughters
Olive and Ada and Miss Pearl Low-
enstein of Jacksonville and Mr. and
Mrs. Everett Smithson of Lynville
were guests at the home of Mr. and
Mrs. Thomas Kirkman Sunday.

Mr. and Mrs. J. C. Neat, Mr. and
Mrs. R. R. Gasen and son, arrived
home Sunday night from their auto
trip. Mr. and Mrs. Neat spent the
week at Excelsior Springs and Mr.
and Mrs. Gasen and son were at
Kansas City.

Ralph Thomas and family motored
to Jacksonville Sunday.

Henry Higgins left Monday for
Jacksonville to visit at the home of
Mr. and Mrs. John Paschall and at-
tend the golden wedding anniversary
of Mr. and Mrs. Jordan.

The following together with their
families, spent Sunday very pleasantly
at the Fletcher farm near the
Illinois river: John Coe, J. P.
Smith, George Hieronymus, William
Balsley, Dr. H. H. Fletcher, Dr.
Walter Kennedy, wife and son of
St. Louis.

"Womanhood, the Glory of the
Nation," was given at the Lyric Mon-
day night to a large audience. The
Winchester orchestra furnished the
music.

FARM NOTES

A Successful Dairy Farmer.
One of the young men who have
left Jacksonville to do their make
city credit is E. V. Correa, of Man-
chester. Twenty years ago he went
down to the Scott county town and
began in a modest way and has
made good. His specialty is dairy
cows and he deals in them to a
considerable extent having sold 213
head this year. For dairy purposes
he prefers the Jersey as he gets
more cream for the money spent in
feed from that breed than any other
and he also claims that the calves
which the owner wants to kill are
good for veal and profitable. He
also has Holsteins and Shorthorns
which he likes very well and says
for all around nothing has beaten
the reliable Shorthorn and for
quantity of milk the Holstein
stands at the head. He has studied
the subject carefully and has made
good in his business.

ILLINOIS WILL SCRIMMAGE WITH HIGH SCHOOL TEAM

Coach Harmon's blue and white
warriors will scrimmage with Coach
Hoover's red and white team on Il-
linois field tomorrow afternoon. The
Illinois men are showing up in good
shape and Coach Harmon expects to
keep them moving from now on.
Coach Hoover's high school boys
came out of the Springfield game in
good shape and the scrimmage
should be of great benefit to both
teams. The coaches expect to
alternate with the ball and give each
team an opportunity to try out its
plays and also get work on the de-
fense.

Coach Harmon takes his team to
Charleston Friday for a game with
Eastern Normal. The team will
leave Thursday night. It will be the
first game for Illinois and there is
little on which to predict the out-
come of the game. Eastern Nor-
mal had a strong team last year and
so did Illinois. However, Illinois'
team was almost demolished by the
war and perhaps the same is true of
Eastern Normal.

AT AN AVIATION CAMP.

Mr. and Mrs. E. E. Edson of
Springfield, and Mrs. A. M. Lam-
bert, of Chicago, who have been
guests at the home of their mother,
Mrs. P. Alkire on East College ave-
nue, have returned to their homes.
Mrs. Lambert's son, A. Myron Lam-
bert, Jr., is in camp Albert Mills,
clerk of headquarters company of
the 149th Field Artillery at Hamp-
stead, Long Island. He is within
a few miles of New York City and
there is an aviation camp about
half a mile away. The young man
says it is not uncommon to see
fifteen airplanes in the air at one
time. He expects to sail for France
at once.

litas lodge No. 625 Rebekahs, will

ternoon at 2:30 o'clock.

COUNTY AGENT'S WORK HAS WIDE SCOPE

Bears Close and Active Relationship
to Every Form of Agricultural
Extension Work—Demonstrates
Better Methods in Farming.

The county agent's work in Illi-
nois is closely and actively related
to every other form of agricultural
extension work. The agent's work
has developed until it consists in
part in rendering practical assistance
in working out all good farm and
community enterprises in the par-
ticular territory the agent represents.

With reference to farm work it
self, the county advisor in Illinois
gives encouragement to and pro-
motes the use of rock phosphate and
lime on soils deficient in these ele-
ments; the tilling of poorly lands;
treatment of oats for smut; and the
agent stirs into action the farmers
who know how to do and what to do
but who have formerly failed to
"find time" to do those things which
they know to be the best practices.

Much of this same work and these
better practices have been advocated
and taught by means of bulletins,
circulars, farmers institutes, short
courses, and lectures. But all these
methods of conveying information
have lacked the "punch" found in
having a man in the field to show
and demonstrate how to do these
things, and which is essential to get-
ting many people to practice these
teachings.

In many cases the county farm rs'
institute does not have a secretary
who feels he can afford to give the
time to his duties to make the insti-
tute a success. In some cases he
does not know exactly how to do
this. In such cases as these, the
county advisor may be called upon
to be of assistance to the secretary
in making up the program, securing
speakers, getting out publicity no-
tices, arranging for live stock, poultry
and corn and vegetable shows, and
the many details connected with the
meeting.

The county agent is the man in his
county to assist in organizing pig
and calf clubs and to aid in the ex-
ecution of all agricultural commu-
nity activities.

The county agent may be the ac-
tive instrument in bringing farm-
ers who wish to see the best prac-
tices, to the best farms in their com-
munity and to the state university
and experiment station on observa-
tion trips. He will help the boys
and girls to get to the short courses
and may instill in their young minds
the eager yearning for a complete
course of instruction in their chosen
profession. And with this long-
ing firmly rooted in the boy's mind he
will very likely make a way to get
it, his desire for a better education.
The county agent's work in all its
phases bears a relationship of help-
fulness and harmony to the other
extension activities, and by careful
cooperation each may render invalu-
able aid to the other.

MAKING IMPROVEMENTS AT POST OFFICE BUILDING

A much needed improvement is
now under course of construction at
the post office building. The plat-
form in the rear of the building is
being considerably enlarged and will
be enclosed. A door will be built
on the west side of the enclosure for
postal employees and others who
may have need of entering the build-
ing from the rear. On the south
side there will be built two large
doors which will be used largely for
receiving and sending out the sacks
of mail. Under present conditions
the sacks, being unloaded from the
wagons onto the platform lay out in
the open and are more subject to
risk, both from weather and theft,
than will be the case when the en-
larged platform is finally completed
and enclosed. It will also be a great
convenience to the clerks, who will
not have to go outside in severe
weather to bring in the mail. A
steam radiator will be installed in
the new addition and keep the place
at a comfortable temperature. Wil-
liam McCullough has the contract
for the work.

BIDS FOR COAL

Sealed bids for furnishing 3-inch
screened lump coal for all county
purposes for one year, will be re-
ceived at the office of the county
clerk until Saturday, Oct. 13th at
11:00 a. m.

All coal to be weighed over the
city scales except that delivered at
the county farm, which is to be
weighed at the farm.
The successful bidder must enter
into a contract and give bond for the
faithful fulfillment of the same.
The County Board of Commission-
ers reserve the right to reject any
and all bids.

Mayfield.

Funeral services for Wellington
Mayfield were held from the resi-
dence south of the Point Sunday
afternoon at 4 o'clock in charge of
the Rev. Myron L. Ponitus, pastor
of Central Christian church. The
deceased had not lived here for a
number of years he had many
friends among the older residents
of the city and county and there was
a large attendance at the services.
There were many floral offerings
and these were cared for by Miss
Thompson, Mrs. George Morris and
Mrs. H. C. Clement. Burial was in
Flamond Grove cemetery, the
bearers being, H. C. Clement, J. H.

class of J. S. Findley and the young
women's class of Mrs. Carriel of
State Street Presbyterian church
held a social in the church parlors
Monday evening. The evening was
spent in a pleasant social way and
refreshments were served.

Entertained for Newlyweds.

Mr. and Mrs. Ervin M. Goveia of
Lynville entertained at dinner Sun-
day in honor of Mr. and Mrs. Charles
Ornellas of Jacksonville, who were
recently married. The dining room
was prettily decorated in red and
white. Mrs. Della Todd, sister of
the bride, and Mrs. Martin, mother
of the groom were also among those
present.

Philathea Class Entertained.

The Philathea Class of the First
Baptist church was entertained Mon-
day evening at the home of Miss
Hilma Franz, 201 1-2 West Morgan
street. The evening was spent most
pleasantly in a social way. During
the evening plans were discussed for
raising funds for the Sunday school.
It was decided by the members pre-
sent to hold a musical entertainment
at some time in the near future for
the raising of such funds. At a late
hour the hostess served refresh-
ments.

DR. CARSON

Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap Hotel, Jacksonville Ill., Wednesday, Oct. 10, 1917. ONE DAY ONLY. (Returns every 28 days.) Hours, 8 a. m. to 4 p. m.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free.

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and then cease to return.

IS THIS THE WAY YOU FEEL?

Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain in hands and feet? Have you a dull, dragging pain or ache of the body, back or limbs? Have you Rheumatism? Have you Flatulency? Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or limbs? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

I invite you to call and investigate the Carson System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT.

Come early as parlors are always crowded.

A friendly call may save you future suffering. It has made life anew to thousands who had been pronounced beyond hope.

C. W. CARSON, M. D.,
766 Oakwood Blvd., Chicago, Ill.

Experience makes perfect. Having treated hundreds of old chronic stomach troubles for the last fifteen years, I can relieve a great majority of these cases and restore them to health and strength again, especially in those cases who suffer from the effects of pain in the stomach and bowels, bloating, gas, spitting up of food, sour stomach, headache, dizziness, loss of appetite, drowsiness, and heavy, bad feeling in the head.

PHYSICIAN—Every case guaranteed cured without attention from business or loss of time.

Private Diseases a Specialty!

NERVOUS DEBILITY—Are you nervous, depressed, weak, tired mornings, no ambition, poor memory, easily fatigued, excitable and irritable, nose stopped, red and blurred, pimples on the face, dreams, restlessness, backward looking, weak back, deposit in urine, drains at stool, distrustful, want of confidence, lack of energy and strength.

FRANKLIN REVIVAL GROWS IN INTEREST

Sunday was a great day in the evangelistic campaign now in progress at the Franklin Christian church. Evangelist John Wright Holsapple is winning the confidence of the entire community by his scholarly sermons and pleasing delivery. The Bible school attendance leaped to near the 100 mark. Two were converted at the evening service at which chairs were placed down the aisles in an effort to accommodate the large audience anxious to hear the popular southern evangelist in his great sermon, "The Race of Life."

At the morning service he spoke on "Being With Jesus," and at 3 o'clock in the afternoon he delivered his lecture on "Thinking." Here are some striking sentences from his sermon of the day:

"I believe there is something in the life of Jesus Christ."

"There is no such thing as a Dr. Jekyll and Mr. Hyde in Christianity."

"Did you ever go to minister unto a suffering one and realize you are ministering unto Jesus?"

"The church has long time been playing with Christianity."

"Our thoughts are largely controlled but if we let them drift they are likely to drift down stream. They are just drifting, drifting, drifting."

"As you think so will be your lives."

PAVING WORK IS
DISCUSSED BY COUNCIL

Mayor Gives Opinion Paving Can Continue Until Nov. 15 if Weather is Normal—Sidewalk Bids Received.

If the season is at all normal concrete work can be safely done for six weeks, was the statement of Mayor Rodgers at the council session Monday morning. The mayor said that sidewalk and paving contractors had told him that unless the season is entirely unusual that they can work with concrete with entire safety until the 15th or 20th of November. A Standard Paving Co. representative also stated that asphalt work is usually carried on until about the 15th day of December. These statements were made with particular reference to the public improvement work now in progress here and it is the opinion of Mayor Rodgers that the fall, the fall, is the opinion of Mr. Bretz, according to Mayor Rodgers statement.

Mr. Vasconcellos reported that all water connections on West State street had been made and that the reservoir was now connected up with the catch basin on Mound avenue.

Mr. Martin made reference to a small fire at the Star restaurant early Monday morning. It was difficult for the firemen to get at the

materials promptly. This is particular true of Jacksonville Railway & Light company, as days of delay have been caused from the non-receipt of copper bonds needed for the rails and which must be put in position before the concreting is done around the ties or the brick laid upon the surface. The fact is that all materials for paving the company's right of way have been here for the past week and Mr. Bretz, the contractor, had the mixer in position to begin work but inability to secure the copper mentioned caused delay and the mixer was moved from the corner of West State and North Church street to West West street where everything is now in readiness for concrete work, which will begin this morning.

Mr. Bretz expects to have a large force on North West street, West Court street and North Sandy street and it will not take a great deal of time to lay the concrete on the concrete foundation. All of the business district can be paved, this fall, is the opinion of Mr. Bretz, according to Mayor Rodgers statement.

JAMES MOY STRUCK BY AUTO ON COUNTRY ROAD

Blind Man Rushed Across Pathway
of Dr. Arthur Prince's Car—Fell
Between Wheels and So Escaped
Instant Death.

James Moy, better known as "Blind Jim Moy," is lying at the point of death at Our Savior's hospital as the result of being struck Sunday morning by an automobile driven by Dr. Arthur E. Prince of Springfield.

Moy was struck in the side by the car and thrown face downward in the road and the car passed over him, the mud pan tearing both legs of his trousers. Fortunately he was thrown directly in the center of the roadway and the wheels of the car missed him.

Rushed to Hospital
Dr. Prince placed the injured man in his car and rushed him to Our Savior's hospital where examination showed his injuries to be of a serious nature. The right arm was fractured, several ribs torn loose from the spine and the pelvis bone fractured and probably internal injuries. Moy was suffering from shock so that a thorough examination could not be made. However, the attending physician was of the opinion that there was a fracture of the lower portion of the spinal column.

The accident occurred about 8:30 o'clock Sunday morning on the road leading to the county farm just north of its junction with the Chapin road. Moy, who is an inmate of the county farm, was on his way to the city. Dr. Prince was traveling north in a Mercer car, enroute to Arenzville where he was going on professional business.

Dr. Prince talked with the Journal over the telephone from Springfield Monday evening and gave his version of the affair. According to Dr. Prince Moy was walking south on the extreme west side of the road while he was driving north on the extreme east side of the road. Just before reaching him Moy turned suddenly and ran directly in front of the car. Dr. Prince said that he was driving at a fair rate of speed but Moy's action was so sudden that he could neither turn to the right nor to the left to avoid hitting him and neither could he stop.

Thrown Face Downward
Moy was struck in the side by one of the lamps and thrown face downward in the road. The car passed over him the mud pan tearing the legs of his trousers. Dr. Prince is of the opinion that Moy's act was intended. He gives as his opinion that a person who is blind is usually acute in hearing and that he would be able to locate the noise made by a car. Dr. Prince said that had he been going any faster or any slower Moy undoubtedly would have been killed instantly as he would have fallen so that the wheels of the car would have passed over his body. The force of the impact bent the lamp and it pierced the radiator of the car.

Moy is a well known character in the city and county. He has lived here all his life and has been blind for many years. He has been a familiar figure on the streets and could go any place he wished to with all the accuracy of a person who could see.

SOLDIERS FARED

WELL ENROUTE
A card from G. D. Wahl to his mother, Mrs. R. J. Hawk, written at St. Louis, says that the Morgan county soldiers who left for Camp Taylor last Friday were given a splendid supper at East St. Louis. Twenty four soldiers from Jersey county joined them at Jerseyville and others were taken on board at Alton. At the latter city the crowd about the railway station was estimated at about the 10,000 mark. The soldiers not only were served an excellent supper but each one was provided with a lunch box to take along on the train.

MR. AND MRS. W. H. JORDAN MARRIED FIFTY YEARS AGO

Well Known Jacksonville People
Celebrated Golden Wedding Anniversary Monday—Friends and
Relatives Gave Surprise in Their
Honor.

Yesterday afternoon at the home of Mrs. John Paschall, 756 West North street, the golden wedding of her parents, Mr. and Mrs. W. H. Jordan was celebrated. The home was handsomely decorated and refreshments were served.

Mr. and Mrs. Jordan were married in Beardstown by Rev. Mr. Chamberlain, a Congregational minister and ten of the guests who were present are now living: Mrs. Edmund Blackburn of Ebenezer, sister of Mr. Jordan, and Mrs. Hartham of Beardstown, sister of Mrs. Jordan are the parents of five children three of whom are living. The latter are Mrs. John Paschall and Harris Jordan of this city and Ernest Jordan of Murrayville. There are also three grandchildren.

Most of their married life has been spent in this county and a number of years ago they gave up farming and removed to this city where they have since resided.

Mr. Jordan was a member of Barbour Lewis' famous Co. G, First Mo. Cavalry, and served faithfully till discharged by disability caused by being thrown from his horse. Both are highly respected residents and much esteemed by all who know them. Mr. Jordan is a member of Matt Starr post G. A. R. and of the monument commission and Mrs. Jordan is a member of the Relief Corps.

The ladies of the W. R. C. happily surprised Mr. and Mrs. Jordan Monday evening at 6:30 by walking in on them with well filled baskets containing sandwiches, cake, ice cream and coffee. A large number were present and a most enjoyable evening was spent. It being golden wedding anniversary of Mr. and Mrs. Jordan the ladies of the W. R. C. presented Mrs. Jordan with \$5.00 in gold, the presentation speech being made by Mrs. Angie P. Weber who said in part: "It becomes my pleasant duty to remind you that we have not forgotten the fact that you have turned half a milestone in wedded life. You have been a member of the W. R. C. for many years, in your different offices you have never failed to perform your duty and have always worked for the good of the order. There comes a time in life when we can honor and reward those whom we esteem, and such is the present occasion. Your friends here this evening present this gift, with their best wishes."

Mrs. Matilda Tyrell gave a reading as did Prof. Henry H. Higgins of Winchester, and both were very much enjoyed. Patriotic songs were sung with Mrs. John Paschall at the piano and the occasion was one of great pleasure.

ON CASH BASIS
The packers and other wholesalers now demand weekly payments from us. Consequently we must go to a cash retail business. Beginning today we must have cash with your order for meat or groceries, when you give the order or at the time of delivery. This plan we feel sure will be both economical and satisfactory for our customers. We will continue to give the best possible values in meats and groceries.

FORD PASSES OVER BOY;
NO DAMAGE.
Saturday afternoon several boys were playing in the street in front of the Cherry Livery. A man came out of North street driving a Ford and one of the youngsters ran in front of it. The driver had the car under good control but the boy was knocked down and the car went its length and stopped. It passed over the boy but fortunately the wheels did not strike him. He got up, brushed the dirt off his clothing and went on playing.

GREAT AUDIENCE HEARD P. P. BILHORN

Famous Song Writer at Grace Church Sunday Night—Ministers of Co-operating Churches Had Part in Service.

A great audience assembled at Grace M. E. church Sunday night for a union service. So many came in fact that the great seating capacity of the church was more than overtaxed and many went away. The coming of P. P. Bilhorn, famous as a hymn writer and singer, was no doubt largely responsible for the presence of this great company.

Those who came were not disappointed for Mr. Bilhorn sings with all of that power and fine feeling which have made him famous in religious musical work for at least twenty years' past. He led the splendid choir of 125 voices and so music formed a very important part of the very helpful Sunday night service.

After a special service of song Dr. Emmett spoke for 15 minutes with "The Withered Hand" as his theme. It was a strong forceful sermonette and carried with it a message for every heart. The special point of the discourse was the need for activity in Christian work, just as in all other fields, if one is not to become lax and slothful. Ministers of the co-operating churches were on the platform and all of them had part in the service. Dr. F. B. Madden presided and the scripture lesson was read by Rev. R. B. Wilson.

A prayer was offered by Rev. W. E. Spoons. Rev. W. R. Leslie pronounced the benediction. The service throughout was one of great inspiration and the interest of the audience was manifest from the beginning to the end.

Mr. Bilhorn, as in days gone by, plays his own accompaniments on the organ and as he played and sang "Sweet Peace, the Gift of God's Love" the audience sat with tense interest. This song is possibly the most famous that he has written and is known all over the Christian world. "The Bird With a Broken Pinion" was another song that helped make Mr. Bilhorn famous, and he sang that Sunday night with fine effect. Intermingling his songs with the relation of personal experiences with well known evangelists, Mr. Bilhorn indeed made a large contribution to the successful Sunday night service.

It was announced that Dr. Hanley and Mr. Fisher, who are to have charge of the revival services, will arrive today and Dr. Fisher will preach the first of the series of sermons, tonight, taking as his theme "The Man on the Sand".

The interest at the Sunday night meeting augurs well for the services as a whole was the opinion of various ministers.

WOMAN TO ANSWER TO MURDER CHARGE

Former Wisconsin School Teacher Charged with First Degree Murder in Connection with Death of Mrs. David Roberts—Case is Notable One in Criminal Annals.

Waukesha, Wis., Oct. 8.—The work of preparation for the trial of Miss Grace Lusk, under indictment for first degree murder in connection with the killing of Mrs. David Roberts, has been completed by the district attorney and his assistants and it is expected the case will come up in court at an early date. The social standing of the accused woman and her alleged victim, together with the sensational circumstances attending the killing of Mrs. Roberts, are expected to make the trial the most notable in the criminal annals of this country.

Mrs. Roberts, whose husband was at one time State veterinarian of Wisconsin, was shot and killed by Miss Lusk, a teacher in the Waukesha high school, on the afternoon of June 21 last. After shooting Mrs. Roberts, Miss Lusk sent two bullets into her own body, but subsequently recovered from her wounds.

The developments following the tragedy are alleged to have revealed the "eternal triangle." Light was thrown on the case by a letter written to Mrs. Roberts by Miss Lusk, in which the school teacher said:

"You must have known for a long time that your husband's affections have passed from you; that he cared for someone else. That is sufficient annulment of any marriage vow ever made."

Found His Wife Dead.

On the day of the tragedy Mrs. Roberts met Miss Lusk at the home of Mrs. Blanca Mills, where Miss Lusk lived. After Mrs. Roberts reached the Mills residence, she called her husband on the telephone and asked him that he be present at a conference between herself and Miss Lusk. When he reached the house 15 minutes later, he found his wife dead. Miss Lusk said: "I didn't intend to do it, but just lost my head when she said I couldn't have you."

For an hour after killing Mrs. Roberts, Miss Lusk, at the head of the stairs in the boarding house with drawn revolver, held off the police and the victim's husband, Dr. Roberts. Finally, on the verge of collapse, she shot herself under the heart rather than surrender.

After killing Mrs. Roberts, Miss Lusk took up her pen and wrote her version of the tragedy in these few words: "The cause of this is a man who said he loved me." On another typewritten page was found this: "In the eternal triangle the only solution of the problem is the elimination of one character; the two who should remain are those whose affection is mutual."

The accused woman is 42 years old and of striking appearance. She is of the athletic type, being fond of all outdoor sports and particularly of revolver shooting. The revolver with which she slew Mrs. Roberts was purchased by her more than a year before the tragedy. She has been known as an expert marksman.

Mrs. Roberts, the victim of the tragedy, for many years had been known for her beauty and her accomplishments. She was an exceedingly modest and retiring person, devoted to her home. Both Mrs. Roberts and Miss Lusk moved in the best social circles of Waukesha.

Letters Will Figure in Trial.

A number of letters found in Miss Lusk's room after the killing are expected to figure prominently in the approaching trial. One of these, evidently written by Miss Lusk to Mrs. Roberts while the former was making a visit to Chicago, reads as follows:

"It has been a desire with me for a long time to tell you frankly about the state of affairs between Dr. Roberts and myself. I have asked him repeatedly to tell you the whole story, but you seem to have him terrorized to a pitiful degree. If I were to blame you for any one thing it would be for that. You must have known for many years that there did not exist between your husband and yourself the honest confidence that is essential to the higher state of marriage."

Other letters found in Miss Lusk's room are said to indicate that the teacher intended to commit suicide, but not murder. One letter was addressed to Mrs. Roberts and another to the minister of the local Congregational church, requesting him to officiate at her funeral.

BOYS STEAL BRASS AND TOOLS.

Some time Saturday or Sunday several boys stole a brass pop valve, a brass cup and a number of wrenches and other tools from the steam roller belonging to John Bretz's paving outfit which is stored on the Billy Sunday lot.

Mr. Bretz reported the matter to the police and the boys were apprehended and the brass recovered. The boys who committed the theft are going to school and have never been guilty of such a thing before. Mr. Bretz said Monday that if all of the stolen articles were returned he would not prosecute. For the same reason the police withheld the boys' names from the press, hoping that this would be a lesson they would not forget and result in their reformation.

FIRE ALARM MONDAY MORNING.

The fire department was called to the Star Lunch room Monday morning about 8:30 o'clock where fire had started from a defective pipe in the ceiling of the kitchen. It required some work to get at the blaze as the firemen had to chop thru the tin roof and sheeting. The flames were soon extinguished and the loss probably will be between \$50 and \$100. The run was made with motor truck No. 1.

MISSIONARY TELLS OF TURKISH ATROCITIES

Plan to Extirpate Armenian Christians from Turkey was Made in Germany—Dr. Andrus Himself Narrowly Escaped Execution.

New York, Oct. 8.—The plan to extirpate the Armenian Christians from Turkey was "made in Germany" and suggested to the Turks by German officials," and where the Armenians made "a stand against their Moslem oppressors it was German officers and German cannon that broke them up, according to the Rev. Alpheus Newell Andrus, senior missionary for the Congregational station at Mardin, Mesopotamia, who told of his experiences here today. The farsighted Germans, he said, were looking forward to the time when they expected to gain complete dominion in Turkey and they wanted to eliminate the Armenian question by getting rid of the Armenian race.

One of the ways the Turks went about it was to load Armenian men on goat-skin rafts on the understanding that they were to be deported—and then they were taken out and dumped into the Tigris River and drowned," he said. "This was the fate of at least 2500 men from the vicinity of Diarbekir and its suburbs in Northern Mesopotamia."

Victims Dumped Into River.

"Armed soldiers were on the rafts which each carried about seventy-five to a hundred victims. Kurd boatmen rowed them out into deep water. Then the soldiers would drive the Armenians to one side of the rafts until they tilted and dumped them into the river. If they tried to climb back on the rafts the soldiers and boatmen beat them and shot them until all perished."

The Germans and the Turkish government, Dr. Andrus said, looked upon the destruction of the Armenians in Turkey as a cold blooded political move, and gave the actual execution of it into the hands of the Kurds and Turkish soldiers who went about it with the ferocity of Moslem religious fanaticism.

"At first the Turkish government objected to the German suggestion of the removal of the Armenians on the grounds that they were valuable as artisans and business men and necessary to the economic life of the country," continued Dr. Andrus, "but the German promised to supply men to take their places. Having persuaded the Turks, the Germans then left it to them to put the plan into effect."

"But the Turkish soldiers in some places could not overcome the Armenians. At Urfa, the city of suffering, the Armenians resolved to resist deportation and defend their innocent families and their churches. They barricaded themselves in their stone houses in their quarter. For ten days they withstood all the efforts of the Turkish soldiery to dislodge them. In the end they would have prevailed but that German officers brought and trained cannon upon their stronghold and forced them to fly."

Turkish Censorship Rigid.

"Surely such a people should not be allowed to perish. There still remain of them to be cared for 6,300 in Urfa and nearby. Will not the American people help care for them? Conditions in Mesopotamia have not been brought much to the public's attention for the reason that there has not been anyone to report the state of things there and because no report could get past the rigid Turkish censorship."

"More than 30,000 Armenians were deported from Diarbekir and its suburbs. It was some of these who were dumped into the Tigris and drowned. The leading and rich men were among these. The others were detailed to dig trenches and to do other work with only an insufficient allowance of bread daily. Later they were shot in groups, when no longer able to endure the hardships imposed."

"There followed an epidemic of cholera and then a scourge of typhus. Before the war and deportations the city contained some 60,000 inhabitants. The last I heard there were only 7,000 citizens left there."

"Women were clubbed, stabbed or shot down on the Mesopotamia plains and left in piles on the ground or thrown into old cisterns. Some, coming to consciousness, crawled out from the piles and up from the cisterns and dragged themselves up the mountain to our hospital at Mardin to have their wounds dressed."

"Some of the Moslems at Mardin took pity upon more than a thousand babies of deported women who, in passing thru, left those they had no milk to feed nor strength to carry as they went on to their lingering deaths on the plains below. When the local government officials learned that Moslems had the little ones they issued an order that whoever harbored any Armenian would be visited with the treatment dealt to the Armenians."

Cared for by Christians. "The Moslems therefore, secretly turned the little ones over to Christian families who clandestinely cared for them until their resources were exhausted. And now the latest information from Mardin is that unless funds are immediately forthcoming the thousand orphans must be turned out upon the streets to starve."

"Help must be regular and continuous. The Committee for Armenian and Syrian Relief has decided that \$5 a month per child will be necessary. That is about 17 cents a day. Who will add one more child to his family and reckon the 17 cents along with what he is spending daily on his other children and at the end of each month send the \$5 to the committee?"

Dr. Andrus himself narrowly escaped execution at the hands of the Turks because of his work at Mardin in succoring the suffering. He was ordered to be court martialed, which under the conditions, he said, meant a "mock trial and the cut-

ting off of the defendant's head." The American Embassy, however, heard of the order and interfered so that it was rescinded and a decree of exile issued instead.

Dr. Andrus, who was born in New York City and graduated from Williams College in 1884 and Union Theological Seminary in 1887, spent fifty years in missionary work at Mardin.

NO HIGH COST OF LIVING IN 1918

It was easy for all men to be free and equal on the wide, uninhabited prairies of Illinois at the time this state was admitted into the Union. An English colony which settled here under the leadership of Morris Birkbeck and George Fowler, found conditions so different from those in England that they were greatly discouraged. They expected to farm the prairie land on a large scale. They soon discovered that this could not be done because of the scarcity of labor.

"No white man or woman," wrote one of the Englishmen, "will bear being called a servant but they will do your work. Your hirelings must be spoken to with civility and cheerfulness."

The reason for the absence of the laboring class and the independence of those who labor was not hard to find. One writer said: "A man used to work will earn in one day what will suffice for the wants of a backwoodsman a whole week. If he be sober and industrious, in two years he can own a quarter section of land, buy a horse, plow, and tools. The lowest price for labor now is \$13 per month with board and lodging."

He then gives two years' net profits and necessary expenditures in order to show that the laborer could very easily purchase his own farm at the end of the period. His figures are as follows:

12 months at \$13 \$156.00
12 months at \$13 156.00

Total \$312.00

Expenditures

Clothing for 2 years \$100.00

One-quarter section of land 80.00

One horse, harness and plow 100.00

Axe, grubbing hoe, etc. 15.00

Total \$305.00

"After putting in his crop of maize," this writer continues, "he can supply himself with meat and some money by hunting, or he can earn one dollar per day in splitting rails for his neighbors. Many men begin as independent farmers with half the above mentioned sum, but they are thorough woodsmen. Now is it not evident that while land can be bought no matter how far from navigable rivers, at \$2.00 per acre, and when there are tracts they may 'squatch' upon for nothing, that labor will be for many years limited in price only by the ability of those who want it to pay for it. It is indeed the only expense; and it is so overwhelming that I would rather farm in old England with a capital of two thousand or three thousand pounds than on the northwest of Ohio."

CHICAGO WHITE SOX CONFIDENT OF VICTORY

At Players are Counting on Four Straight—Russell and Danforth May Pitch Today—Giants Still Confident.

On Board the Chicago White Sox Special Train, Oct. 8.—The Chicago White Sox are speeding east today flushed with two victories over the champions of the National League in the World's Series struggle and are eager to tackle the New York Giants tomorrow at the historic Polo Grounds. There is not one member of Comiskey's ball club who does not believe that the White Sox will capture the supreme honors of baseball in four straight games.

The White Sox were surprised at the ease with which they solved the riddle of McGraw's left side (finger) Schupp. They had heard so much of his effectiveness in the National

League pennant race that they looked for trouble when he started, but they found no riddles in his delivery and some of the westerners did not think it likely that McGraw would send him in again.

"Whoever starts for the Giants is going to have trouble," said Buck Weaver, the White Sox shortstop. "Did you notice that Jackson, Collins and Felsch are getting busy with their bats?"

Captain Eddie Collins, of the White Sox said on the train today, and "Chick Gandil and Felsch agreed with him, that Sallee was the best pitcher that the Giants had sent in against them.

"It is not that he has so much stuff on the ball," said Collins, speaking of Sallee, "but he knows how to use it and pitch intelligently. He closely approaches Eddie Plank in ability and reminds me much of him in his way of pitching." Gandil and Felsch also praised Sallee's work in the box.

The White Sox expect that Cicotte will pitch on Tuesday altho "Red" Russell is anxious to go in, declaring that his arm is in good shape again.

The White Sox special is crowded with Chicago fans enroute to see the continuation of the World's Series in New York on Tuesday.

On Board the New York Giants Special Train, Oct. 8.—Still confident of ultimate success despite their two successive defeats at Chicago, the Giants passed thru Detroit early this morning on their way back to New York where tomorrow they resume their world's series operations against the White Sox. Beyond admitting that they were clearly outplayed in practically every department of the game in the two games at Comiskey Field, they had little to say of their Chicago reverses.

Their trip from Chicago thus far had been a quiet one with the players whiling away the time at cards and amusements. They expected to reach New York at five o'clock or thereabouts this afternoon and seemed anxious to return to the familiar surroundings and friendly faces of their home city.

Catcher Lew McCarty who was forced to retire from yesterday's contest after a mixup at the plate with "Nemo" Leibold the White Sox outfielder, declared that he expected to be fit to resume play in the New York opening of the series tomorrow. McCarty's right elbow and shoulder were painfully hurt, but it is supposed not seriously bruised in a collision resulting from his effort to prevent Leibold from scoring on Eddie Collins' single in the fourth inning yesterday and for a time it was feared that he might be incapacitated for the remainder of the series.

Immediately after his accident, however, he was examined by the club trainer and no signs of a fracture or even a severe strain were discovered. He hoped to be able to play by tomorrow and declared that by Wednesday he should be practically as good as ever.

Betting Now 3 to 1.

New York, Oct. 8.—With the Chicago White Sox and here late today from Chicago, the scene of the World's Baseball Series now shifts to New York and local fandom, disappointed but not dismayed as the result of the first two games is hoping for Giant victories in Tuesday's and Wednesday's contests.

It is argued by the fans that on home grounds and with the encouragement of a friendly crowd, the Giants, stung by their defeats, will redeem themselves and demonstrate their true form. The betting, however, has switched and wagers of 3 to 1 on the White Sox are asked, with but little money in sight.

All is in readiness at the Polo Grounds to handle the great throng that will witness the classics. Everything has been provided except the weather and that promises to be fair. Despite unusually energetic measures to check ticket speculation, quantities of the coveted pasteboards have reached speculators and they are being offered for sale at an increase of from 300 to 400 percent, above the stipulated price.

The vanguard of baseball enthusiasts from various parts of the east arrived last night and hotels are crowded to capacity. Special trains will bring additional quotas tomorrow.

Rowland's Hand Injured.

Chicago, Oct. 8.—Clarence Rowland manager of the White Sox, today is wearing a bandage on his right hand on account of a burn which he suffered at the ball park. During the excitement after the game yesterday when he was preparing to leave for New York, the victorious manager in turning on the hot shower at the club house thrust his hand into a great volume of escaping steam and it was so badly burned that it had to be band up in oil.

Just before leaving for New York Rowland said he would start Russell, Danforth or Cicotte against the Giants at the Polo Grounds in the third game of the series tomorrow.

"I will pitch Russell if his arm is in good shape," said Rowland. "If I do, I will depend upon Danforth should Russell show any signs of weakening. In the event that Russell does not look good when warming up I will send Cicotte to the mound."

POLICE CAPTAIN HAS MANY SONS

Chicago, Oct. 8.—Captain Michael J. Gallery, in command of the police detail at White Sox Park during the world's series games, was surprised today when he learned that eighty-seven youngsters claiming to be his sons had been passed into Sunday's game.

The crowds waiting around the park gate noticed several boys go up to the various gates, whisper to the policemen or park employees on duty and walk in. When the policemen checked up at headquarters it was found that eighty-seven "sons" of Captain Gallery had been passed in. "I'll have to call up Comiskey to square myself for the young devils that put it over on the coppers," said Captain Gallery.

NEW YORK WELCOMES BASEBALL CLASSIC

THIRD GAME OF WORLD SERIES WILL BE PLAYED TODAY

Gotham Fans Eagerly Awaiting Contest—Giants Greeted By Hundreds of Fans—Band Meets Rowland's Men—Who Will Pitch Today a Question.

New York, Oct. 8.—Notwithstanding the reverses suffered by the New York Giants, champions of the National League in their two encounters with the Chicago White Sox, pennant winners of the American organization, followers of the game in New York are eagerly awaiting the third contest.

The two teams arrived in New York tonight. The Giants were greeted by hundreds of friends as they dropped off their special train in Harlem. Those who expected to see a dejected lot of ball tossers missed their guess. On the contrary the men greeted friends as cheerily as if it were the White Sox that had suffered the bitterness of defeat. Each player felt hopeful that tomorrow's game will tell a different story.

Victory was written all over the faces of the Chicago players. A large crowd and a band were on hand to greet Rowland's men and they were given a cheer as they left their town. It was a happy lot of athletes brimful of confidence that the world's championship would be theirs. To the victorious American Leaguers it is not a question of winning the series, but whether they can do it in four straight games.

Weather conditions for tomorrow's game promise to be all that is desired. A light rain fell early tonight but the weather man soon eased the fears of fans when he announced that the morrow would be fair and cooler. The playing field is expected to be in excellent condition.

A crowd that will tax the capacity of the stands is predicted for the fray. The entire upper-grandstand of 9,000 reserved seats had been sold in advance and the distribution of the tickets was completed today.

The club offices were crowded most of the day with fans trying to buy tickets, but there was none to be had. Some choice seats in the upper stand were offered by speculators at \$35 for a set of three and \$70 for two seats to each of the three games. Some seats near third base were offered for sale at \$20 each.

While the inquiry for tickets was brisk, most of those seeking them grew slow to buy at tonight's high prices, hoping that there would be a drop tomorrow. Some of these fans are figuring that because of the two defeats suffered by the Giants the demand for tickets will not be so great and that prices will begin to drop tomorrow morning.

More than 25,000 tickets for the lower grandstand and the bleachers will be placed on sale tomorrow morning and when the seating capacity of the grounds is reached all gates will be closed. Those purchasing tickets must go directly into the grounds.

The bleacher line began to form tonight and is expected to lengthen rapidly during the early hours tomorrow morning.

The New York club management expects about 38,000 persons will pay to see the game. Thousands of fans from other cities have arrived to witness one or more of the games and hotel accommodations were difficult to obtain tonight.

What little betting was reported tonight was two to one that the White Sox would win the series. It was even money when the Giants left for the west. New York fans are hopeful that the Giants' pitching staff will pull itself together and that the team as a whole will start hitting. They figure that Zimmerman and Kauff, who failed to connect safely in the two games at Chicago are about due to break loose with their bats. The Giants confidently count on winning the opener before the home crowd and feel that the chances also will favor them to win on the following day. The followers of the western team however, flushed with two victories, sent another one tomorrow. Having looked over McGraw's best pitchers, with the exception of Benton and found none of them difficult to reach, the Sox rooters think that no matter who goes in against Chicago the result will be the same. Pitching possibilities are always a matter of speculation.

Manager Clarence Rowland starts Cicotte, McGraw may send Sallee in to oppose him. Another possibility is Schupp against Russell.

It is probable that Rariden will do the catching for New York as McCarty's shoulder and arm are still sore from the fall at the home plate in Chicago Sunday when he tried to touch out Leibold.

OUTSIDER COPS CHAMPION FUTURITY

Opera Express Takes \$5,000 Feature At Lexington

Lexington, Ky., Oct. 8.—The Castleton Stake, won by Mabel Trask and the Champion Futurity, won by Opera Express, were the features of today's grand circuit meeting. The meeting of Mabel Trask and St. Frisco overshadowed all else. In neither heat was the mare fully extended.

The Champion Futurity, worth \$5,000, was won by the outsider, Opera Express. The second and third heats were particularly close, many thinking that Opera Express had won the third, so closely were the heats bunched.

Measles won the 2:17 trot in straight heats. The 2:08 pace which was a two horse race was hard fought through the five heats. Princess Margaret won the first two heats, but could not overhaul Hal Connor in the next three. Ira C. favorite in the 2:14 trot lost the first heat to David Look, due to a break, but won the next two in handy style.

Summaries
2:17 trot, purse \$1,000; Measles, (Hardy), won; Frances Belmont, sec-

ond; Allerton Heir, third. Best time 2:11 1/4.

2:08 pace, purse \$1,000; Hal Connor, (Ronin), won; Princess Margaret, second, Tramp-a-bit, third. Best time 2:07 3/4.

The Castleton, Free-for-All trot, purse, \$2,000; Mabel Trask, (Cox), won; St. Frisco, second; Zomret, third. Best time, 2:05.

The Champion Futurity, 4 year old trot, purse, \$5,000; Opera Express, won; Bonnie Del, second; General Yorke, third. Best time, 2:08 3/4.

2:14 trot, purse, \$1,000; Ira C. won; David Look, second; Lord Talbot, third. Best time 2:09 1/2.

COBB BATTING CHAMP OF MAJOR LEAGUES

Detroit Star Slugger Hammers Out 224 Hits for Average of .380—Speaker 22 Points Behind—Roush Leads National League with .343.

Chicago, Oct. 6.—Ty Cobb, the Detroit star, and Eddie Roush, the hard hitting outfielder with Cincinnati, are the 1917 batting champions of the major leagues.

Cobb, with an average of .380, finished with a lead of twenty two points over Tris Speaker of Cleveland, who led the American league in 1916 according to unofficial averages released today. Roush showed the way to the National league batters with .343—twenty one points ahead of Roger Hornsby of St. Louis, his nearest rival. These averages include the final games of the season for the Western teams.

In the American league the fight for base stealing honors resulted in a surprising shake-up. Chapman of Cleveland going into the lead with fifty four. In four games Chapman stole six bases. Bobby Roth, Chapman's teammate, who held the lead a week ago, stole fifty one and Cobb forty nine. Chapman also topped the sacrifice hitters with sixty nine.

Cobb was credited with 224 hits in 153 games. He cracked them out for 333 bases. His record included forty doubles, twenty four triples, and six home runs. Pipp of New York however leads in circuit drives, having made nine up to Oct. 3.

Owens Bush, the Detroit shortstop, is in possession of scoring honors, having counted 112 times with Cobb six runs behind him. Detroit clung to team batting honors with .259 with the championship Chicago outfit five points behind.

Some Leading Batters.

Leading batters who played in half or more of their club's games:

In the National league Carey of Pittsburgh finished far in front for base stealing honors with fifty thefts to his credit. Including Wednesday's games Cravath of Philadelphia and Robertson of New York were tied in home runs, each having twelve. Burns of the championship New York club brought his total of runs scored up to 103. Heinie Groh of Cincinnati trailed him with 91. Deal of Chicago topped the sacrifice hitters with twenty nine.

Hornsby the St. Louis shortstop, who finished second to Roush in batting, stretched his hits for a total of 248 bases, while the best Roush could do was 236 bases. Hornsby drove out 168 hits which include eight home runs, twenty-six doubles and fifteen triples. Roush made eighteen doubles, fourteen triples and four circuit drives. In team batting Cincinnati had 264 and New York 260.

Leading batters who played in half of their club's games:

Too Low!

The hydrometer tells the tale!

The little float, sinking deep in the battery solution, gives instant warning of danger.

The specific gravity is too low—the battery has been starved, but the hydrometer warns you in time to apply the remedy and keep your battery in good health.

You might never have guessed that trouble was near—because your battery appeared to work with undi-

minished energy. But the hydrometer is never fooled—it always shows up the true condition of your battery.

Next time you're near, come in and we'll show you how to take hydrometer tests.

And while you're here, ask us about the Still Better Willard with Threaded Rubber Insulation. The remarkable performance of this battery during a two years' test is of interest to all car owners.

**"You can cut down
that item"**
and have
a better roof

There is no use in putting on an expensive roof
when you can get a better roof and save real
money by using

**Certain-teed
Roofing**

CERTAIN-TEED is the best roof, not only because it costs
less to manufacture, but also because it is weather-tight, light
weight, clean, sanitary, fire-retardant, and costs practically
nothing to maintain.

It is now used as the preferable type of roof for office buildings,
factories, hotels, stores, warehouses, garages, farm buildings
etc., where durability is demanded. CERTAIN-TEED is
guaranteed for 5, 10 or 15 years, according to thickness (1,
2 or 3 ply).

There are many roll roofings on the market, but only one
CERTAIN-TEED. It pays to get the best. It costs no more
to lay a CERTAIN-TEED roof than it does to lay a poor
roof, but there is a vast difference in the wear. You can't tell
the quality of a roofing by looks or feel. Your only safety is the
label. Be sure that it is CERTAIN-TEED—then you are
certain of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles
are supplanting wood and slate shingles for residences. They cost less,
are just as good looking, wear better, won't fall off, buckle or split. They
are fire-retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes
are the best quality paint materials,
ground and mixed with mechanical
accuracy. Made for all uses and in all
colors. With paint, as with roofing,
the name CERTAIN-TEED is a
guarantee of quality and satisfaction.

LITERBERRY BAPTISTS WIN PENNANT

Given by Woman's Mission Circle of
Illinois in Reading Contest—Red
Cross Branch Now Located—Ladies'
Aid Meets—Other Literberry
News Notes.

Literberry, Oct. 8.—Thursday
morning, D. K. McCarty and wife, J.
M. Daniels and wife, J. M. Litter and
wife and Mrs. J. E. Underbrink drove
over to Waverly to represent the Lit-
terberry Baptists people at the Mor-
gan-Scott County Association. The
Ladies were especially interested in
the Woman's Mission reading con-
test. The Woman's Mission Society
offered a pennant to the largest per-
centage of readers in the mission cir-
cles. Mrs. Underbrink presented the
Literberry Circle, in a modest
manner, telling of their work and of
the several books that had been
read by most of the members. This
with the report previously sent in,
won the pennant, with several points
to spare. Mrs. Margaret Burnett,
in her pleasant manner, made known
to the large audience that the pen-
nant given by the Woman's Mission
Circle of Illinois, in the contest, was
legally won by the Literberry Cir-
cle. As they carried off the pennant
with its bright colors and pretty let-
ters they received many congratu-
lations and many a merry "I'm glad
you got it," was heard. The funny
man said, "so you folks carried off
the rag." The ladies informed him
it was no rag, but a beautiful em-
blem of mission work. A display
was made of this pretty piece of vel-
vet and paint, all the way home, as
we passed through the villages and
lanes, while the members who re-
mained at home were rejoiced when
they realized how much we had done
in less than a year. Any one de-
sirous of seeing our prize will find
it on the pulpit arch of the Baptist
church.

Entertained at Burnett Home
The Literberry delegates were en-
tertained at the home of Mr. and
Mrs. Wm. Burnett, four miles north
of Waverly, and had a bountiful
feast spread for them. We found
Mr. and Mrs. Burnett a royal host
and hostess.

Mrs. Mecca Yeck of Concord
drove to Literberry Sunday in her
Buick car, bringing with her seven
other ladies. They drove to Cedar
Cottage, which they captured and
held for the day. Mr. and Mrs. S. C.
Ennis, the occupants of the cot-
tage put up no fight to oust these
good people, but put up a fine dinner
to appease the good friends, and in-
vited them to make another invasion
in the near future.

On Tuesday Mr. and Mrs. Ennis
were again surprised with unexpect-
ed company. This time it was Mrs.
Ranick Hinds in her Buick car, and
she brought with her Mrs. S. C.
Johnson, of Washington, D. C. Mr.
Johnson is private secretary of
Congressman Sears; he is also a son
of Mrs. Mollie Johnson of Kissimmee,
Florida and a grand nephew of S. C.
Ennis of Cedar Cottage.

Mr. and Mrs. C. A. Beavers and
Mrs. Jesse Litter attended the golden
wedding of Mr. and Mrs. Albert De-
Freitas at Jacksonville Tuesday.

Servants at Grace Chapel
S. W. Nichols and wife drove their
intelligent and reliable horse "Billy"
to Literberry Sunday morning and
intended to attend services at the
Baptist church but the house was
closed for fumigation, so they went
to the Christian church, where Mr.
Nichols taught the Bible class and
afterward preached a good sermon.

They took dinner at "Sunshine Cot-
tage" and in the afternoon were
driven to Grace Chapel where Mr.
Nichols gave a very interesting talk
on some of his late travels, telling us
first of Russia, going on to many
other places of interest. We have
heard that some of the people of
Grace Chapel are expecting to build
another room to the church in the
near future and have raised funds
for enlarging the church. When we
saw there Sunday afternoon in the
empty, silent church we wondered
why they wanted another room, and
what would they put in it. There
were eleven persons present on Sun-
day and no one among them was a
teacher. No superintendent, no as-
sistant superintendent, no officers of
any kind. The piano stood open and
dusty; no one went near it. The sil-
ence became dreadful and we in-
vited Brother Nichols to give a talk
to the few faithful who were present.
We asked ourselves, what was the mat-
ter? Are they all sick? Did all of
our good people go to Sangamon
bottom for hickory nuts and pecans?
Or is it infantile paralysis? We ask
Brother Billy Crum to solve the
question.

Girls! Use Lemons!
Make a Bleaching,
Beautifying Cream

The juice of two fresh lemons
strained into a bottle containing
three ounces of orchard white makes
a whole quart pint of the most re-
markable lemon skin beautifier at
about the cost one must pay for a
small jar of the ordinary cold creams.
Care should be taken to strain the
lemon juice through a fine cloth so
no lemon pulp gets in, then this lo-
tion will keep fresh for months. Ev-
ery woman knows that lemon juice
is used to bleach and remove such
blemishes as freckles, sallowness and
tan and is the ideal skin softener,
smoother and beautifier.

Just try it! Get three ounces of
orchard white at any pharmacy and
two elmons from the grocer and make
up a quart pint of this sweetly frag-
rant lemon lotion and massage it
daily into the face, neck, arms and
hands. It naturally should help to
soften, freshen, bleach and bring out
the roses and beauty of any skin. It
is simply marvelous to smoothen
rough, red hands.—Adv.

The community was very much
shocked and saddened on hearing of
the death of our young friend Rus-
sel Hunter. He was a regular schol-
ar in the Baptist Sunday school, a
fine, good looking boy and a favorite
among his friends. Mr. and Mrs.
Hunter have the tender sympathy of
the church people; also of the neigh-
borhood.

The Misses Olive, Ellen and Edith
Scribner and their aunt, Della Scrib-
ner of Perry, Iowa, all went to Jack-
sonville Saturday in O. L. Crum's
Ford car and visited some of the
state institutions and other places
of interest. They took a well filled
dinner basket along, spread dinner
in Nichols park and proceeded to
have a fine time. Why not?

Some New Residents

The population of Literberry is
greater now than in the past sum-
mer. In the evening when we look
over to Brother Cantral's house, that
was, (the parsonage) we see it light-
ed up and see people going in and
out, for Prof. A. B. Rochester and
young wife reside here. As we go
on down Peoria Boulevard, we see
some pretty children playing on the
lawn at Grandma Ratliff's home and
we find Mr. and Mrs. Alphonso
Ratliff living there. Across Michigan
avenue, just south of us, we see some
upstairs rooms whose windows are
illuminated at evenings, and Mrs.
Gunn informs us that our efficient
school matron, Miss Ruth Mellor,
keeps house in these rooms. On
Broadway, at The Poplars, Dan Con-
way sets the table three times a day
and apparently has come to Liter-
berry to stay. We are glad of the in-
crease, for Literberry is a good place
to live. We can recommend it.

The Literberry Red Cross branch
has rooms on church street now, all
carpeted and fitted up ready for Red
Cross business. What will you do?
Sew or knit? Get busy.

The Ladies of the Baptist church
were entertained at Golden Green
on Thursday afternoon. 45 persons
were present to enjoy the program
which consisted of songs, prayers
and readings. The first prayer was
offered by Mrs. Jackson Henderson,
warm, earnest, taking in all the peo-
ple of Literberry, imploring a spiri-
tual blessing for every one in the
community. The second prayer was
by Mrs. W. E. Murray, pleading for
more zeal and interest among our
people, for the missionary cause, and
a willingness among the converted
ones, to do for foreign countries and
home fields just what God requires
of them. Mrs. Flora Nickolas read
a good poem on "Home" and Mrs.
Earl Rexroat gave a reading from
the mission book, "Comrades in Ser-
vice." The subject was a little girl
called "Chunda Lee." Mrs. Rexroat
gives splendid articulation and pun-
ctuation which makes any good read-
ing a treat. Refreshments were
served at the proper time by the
hostess Mrs. M. O. Petefish, assisted
by her daughter, Mrs. Charles Mc-
Donald and were of the best and in
abundance. An offering of four dol-
lars and twenty five cents was taken.

WOMEN STEADY WORKERS

It used to be said that women
could not be depended upon like men
to work steadily, and, consequently
ought not to expect so much pay
as men employed at similar work.

While it would be foolish for any
young women to stay at work when
physically unfit, it is believed that
most women now continue at their
work as constantly as men. Any
woman who is unable to do so should
take Lydia E. Pinkham's Vegetable
Compound, the old, reliable medicine
for women, and get the aid she needs
to enable her to keep at work.—

**CALUMET
BAKING POWDER**

For instance—one spoonful of Calumet
will positively do the work of two spoonfuls of
most other kinds. You use only a level teaspoon-

must use twice as much. You use the smallest
amount of Calumet because you get the greatest gas

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

This is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

You Get Better Cough Syrup by Making it at Home

What's more, you save about \$2 by it. Easily made and costs little.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save \$2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (60 cents worth) from any good drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Here you have a full pint—a family supply—of the most effective cough syrup that money can buy—at a cost of only 65 cents or less. It never spoils. The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

BUILD A CAVE TO SAVE FOOD

Illinois Can Grow no More This Year, so Not a Pound Should be Wasted.

In the great war, between thirty million and forty million men are under arms. They must be clothed, maintained, and above all, fed.

Nearly as many more are engaged in making war munitions and materials. They must be maintained and fed.

In the history of the war there has never been a time when so small a percentage of the people have been engaged in food production. Therefore, every pound of food of any sort is precious.

Illinois can grow no more food this year. The duty upon all now is to save the food that has been grown—to save, not so much by cutting down family or individual rations, as by preventing waste.

To store the perishable food that now exists in the state is the big job of all. It is particularly the job of those who have grown it. Fill the cellars. If they overflow, build food caves, or outdoor pits—the kind the early settlers used.

Cave Building Plans

Mr. DeWitt C. Wing, editor of the *Breeders Gazette*, tells how to build a food cave and build it well. He says:

"Potatoes, apples, late pears, onions, celery, rutabagas, parsnips, salsify, beets, turnips, squashes, pumpkins and cabbages can be stored so that they will keep until late in the spring, if not until vegetables of next year's growing are available for home use.

"Build a food cave and store them in it. Every farmer, as well as every village resident, who has a supply of these products owes it to his family, his community and his country to save for the lean days ahead. By doing so he will increase his own security against hunger, and add to the world's stock of food. It will pay him in dollars and in peace of mind.

"A food cave can be easily and cheaply constructed. Build it big enough to take care of everything that is desired to keep through the winter. A popular size is 8 feet wide and 16 feet long; side up the walls and roof the cave with heavy plank, covering over with earth; a flue 6 inches square through the roof is required for ventilation.

"Equip the cave with bins and shelves. Vegetables must have air. The essentials are that the cave shall be frost-proof, and the temperature inside cool, say 40 F. at all times. The cave should have a concrete floor with a string of tile under it to carry off water; also a door, and a small window at each end.

"Or build on outdoor pit. Having selected a well-drained portion of the garden, dig a hole about four inches deep, varying in width and length to suit the amount to be stored. Line the bottom with a thin coat of straw and upon this place the vegetables, forming a cone-shaped pile. Over these a two-inch layer of straw should be placed and at first a thin layer of dirt. After the vegetables have gone through the heat and as the weather becomes colder another layer of straw and more earth should be placed over the pit. When the temperature gets below zero an additional layer of litter or straw manure may be placed over the pit to prevent freezing.

"Usually a ventilator is placed in the center of the pit, running up through the pile of vegetables and extending out at the top. This is made by nailing three boards together in the shape of a triangle. In extremely cold weather pack this ventilator with straw.

"Most garden crops which it is desired to store should be externally thoroughly dried outdoors before they are stored in a cave or pit.

"Build the food cave now. Use this fall. If any special instruction in regard to it is desired, write at once to your state agricultural experiment station at Urbana, consult your county agricultural agent or write to a farm journal in your territory."

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick,
Wavy and Beautiful—
Try It!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scour.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderrine, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Adv.

Methods to Observe In

Laundering Colored Silks

For silks, which are now a part of the everyday washing, clean lukewarm water in which good white soap has been dissolved should be used, and there is no need of soda or any of the washing powders, says the *Ladies' World*. Make a good sud, wash the silk garments, such as crepe de chine, washable satin, pussy willow silk, with as little rubbing as possible, remembering that two soapy waters are far better than one which has been overused. Rinse in several lukewarm waters, and if a white silk a few drops of bluing may be added to the last water.

Much of the new underwear is flesh colored or delicate pink. This color is likely to remain with the method just described; but, to retain pink coloring may be put into the last water. This may be done by soaking a little colored tissue paper in water or using water color dyes.

The method that has been suggested for white silks will be successful for colored silks and wools as well. All three are composed of delicate fibers and should be washed without rubbing with water no warmer than the temperature of the hand and good quality white soap in the form of a suds. All waters that are used for these fabrics should be of the same temperature; the work should be done as rapidly as is consistent with good results, and the drying should be out of the sun. It is well to press the colored silks in a towel before hanging, as this will absorb surplus moisture and avoid streaks.

Simplicity the Keynote Of House Furnishing

What kind of curtains shall I have for the living room?

What shall be the color of the new wall paper for the dining room?

These are questions that continually confront the housewife and that require care in answering in order that the home may be a harmonious whole. A knowledge of the principles of simplicity, neatness and sincerity as applied to house furnishings is necessary, according to Miss Grace Averill, assistant in home art in the Kansas State Agricultural college.

"Many persons have the idea that it costs a great deal to furnish a home tastefully, but this is not true," says Miss Averill. "A few simple furnishings, moderate in price, that go well together are in better taste than a profusion of costly articles that are unrelated. Having only a few necessary pieces of furniture in a room helps to give an air of spaciousness. This is a valuable principle to follow in furnishing the small house.

"The floor and walls should be finished in neutral tones in order to form a background for the furnishings and also for the persons who will occupy the room."

Care of the Hair

Use an egg in washing the hair. Break the egg into a basin. Beat the egg until white and yellow are well mixed; then with the fingers rub the egg into the roots of the hair. Rubbing it well into the scalp is most beneficial, and at least a half hour should be used in this gentle rubbing; then wash the hair with good white soap and warm water until all the egg is removed. Rinse in several warm waters, and lastly in cold. Instead of using soap one may use one part of aqua ammonia to ten parts of water.

BOYS STEAL HORSE AND BUGGY

Oiver Coleman, who has figured in police circles quite frequently of late, and who is now awaiting sentence to St. Charles got into the hands of the police again yesterday.

Coleman in company with another colored boy, named James Allen took a horse and buggy belonging to Carl Litter who is employed by the Kaule and Self garage. Mr. Litter had the rig tied in the alley in the rear of the garage. The boys took it and started out. While driving in Vine street at the eastern limits of the city they overturned the buggy and broke a shaft and otherwise damaged it. The horse was not hurt.

The police were notified and Patrolman Baker and Detective White and J. A. Vasconcellos manager of Cherry's livery went to the scene and brought the horse in. Later Coleman and Allen accompanied Frank Tate janitor of the city hall to the police station where they expected to get a pair of shoes. They were questioned by the officers and finally confessed to taking the horse.

Both boys were locked in the police station and Coleman probably will be sent immediately to St. Charles and Allen also may be sent there as he spends most of his time roaming thru the alleys adjacent to the business district.

"CASCARETS" FOR A COLD, BAD BREATH OR SICK HEADACHE

Best for Liver and Bowels, for Bili-
ousness, Sour Stomach and
Constipation

Get a 10-cent box now. Furred tongue, bad cold, indigestion, yellow skin and miserable headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, while hours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv.

MORGAN

Farmers are busy cutting corn and sowing wheat. Corn is quite green to cut but the recent frosts will help it to ripen.

Mrs. M. V. Hutches and daughter Ruth were Jacksonville visitors last Friday.

Mr. and Mrs. Charles Oakes and Miss Beulah Hatfield of Bluffs were callers at the home of Clyde Williams last Thursday evening.

Mr. and Mrs. Arthur Lovekamp and daughter visited relatives near Aremville Sunday.

GOVERNMENT CROP REPORT ADVANCES CORN

Estimates 36,000 Bushels More Than Report Suggested Month Ago.

Chicago, Oct. 8.—Government estimates of 36,000 more bushels of corn as compared with the total suggested by the crop report of a month ago led today to a material advance in the corn market. Prices closed firm 1/2c to 3/4c net higher at \$1.15 to \$1.20 December and \$1.15 to \$1.16 May. Oats gained 1/4c to 3/8c, in provisions the outcome ranged from 2 1/2c decline to a rise of \$1.00.

Business in corn consisted mainly of covering up by shorts who were mistakenly expecting that Washington would announce a falling off of about 70,000,000 bushels from last month's appraisal. Widespread killing frosts last night tended to increase buying.

Something of a revival of seaboard demand strengthened exports. Provisions rallied when corn developed strength.

SAYS U. S. IS PREPARING ARMY OF DISARMAMENT

Noted Italian Historian Makes This Assertion in Published Statement—General Disarmament Will Be a Necessity After the War.

Milan, Italy, Oct. — (Correspondence of The Associated Press) — America is preparing the army of disarmament, declared Guillermo Ferrero, the noted Italian historian in a statement published by the Secolo.

"The United States," asserted Signor Ferrero, "are preparing the new American army to defend their most sacred interests, to prevent Europe from falling under a hegemony which would menace the liberty of the world; and in order to have at the peace conference the necessary authority to summon the great states of Europe to lay down their arms."

"General disarmament after this war will be a necessity if the states of Europe do not wish to rush into barbarism and anarchy. America will rapidly create a vast army because she could not, without very grave danger to herself and to the equilibrium of the whole world, neglect to make a counterpoise in the new continent to the monstrous development of armaments in the old."

"The United States were never dominated either by militarism or imperialism. They have, indeed been governed for five years by that one of the two American parties which is more averse from imperialism and militarism. To submit to conscription and to be sent to fight in Europe is for the Americans a much greater sacrifice than that of any other of the peoples of the Entente had to make for the defense of its frontiers and its very existence."

Asserting that the question what America is going to do in the war, is put many times a day to those presuming to know, Signor Ferrero stated:

Many people—and among them are some members of the mission sent by the Italian government to the United States—are of opinion that the United States would give more help to the Allies by sending food, arms, and money rather than soldiers. It is said that the transport of a large army from America to Europe would require too great a number of ships, and would therefore complicate still further the provisioning of the allies in Europe who are more in need of food and other necessary things than of men. But those who argue on these lines show that they have not understood the very profound reason for America's intervention. America will help the Allies with money, food and metals, but also, and very largely with men, because she needs today to create a large army."

NOTICE TO CONTRACTORS

Bids are hereby asked by the City of Jacksonville for the construction of certain sidewalks on the following: Myrtle, East North, Chambers, Mathers Street and East College street and Ashland Ave. Sidewalks are to be constructed adjacent to property where owners have failed to comply with sidewalk ordinances. Specifications are on file in the office of the city clerk and contractors can there acquaint themselves with the law governing work of this kind and the provision for payment.

Bids will be received until 10 o'clock a. m., Monday, Oct. 8, 1917. R. L. Pyatt, City Clerk.

NEW JAPANESE GIRLS' COLLEGE

Tokio, Oct. — A new missionary institution for the education of Japanese girls will be opened in Tokyo next year and will be called the Woman's Christian Union College of Japan. It will be directed by some of the most prominent educators of the Empire, including Dr. Inazo Nitobe who will serve as honorary president. The interests of the college so far as they are related to the co-operating missions and mission boards in the United States will be in the hands of the executive secretary of the boards of trustees, to which position Dr. A. K. Reichauer has been elected.

The college has the backing of the American Baptists (North), Methodist Church of Canada, Methodist Episcopal Church, Presbyterian Church in America and the Reformed Church of America.

COMPULSORY SERVICE LAW ENACTED

Hong Kong, China, Oct. — English citizens objected seriously to the enactment of a compulsory military service act in the Hong Kong colony, but were unable to defeat the measure. The objectors based their opposition chiefly on the failure of the act to limit compulsory service to the duration of the war.

As a concession to the objectors, Sir Henry May, the governor of Hong Kong, promised that six months after the signing of peace, the legislative council will consider amendments to the act, with a view to making it harmonize with the policy adopted in England and in other British colonies.

NAMED AS TREASURER OF MEXICO

Mexico City, Oct. — Francisco M. Gonzales, now a senator from the state of Tamaulipas, has been named by President Carranza as treasurer of Mexico. He will replace Nicoforo Zambrano who resigned that post to become governor of Nuevo Leon.

BRITISH MANUFACTURERS PROVIDE ARMY BOOTS

London, Oct. — British manufacturers have provided 35,000,000 pairs of army boots during the three years of the war.

Mrs. Charles E. Scott has returned from a visit of a few days in Chicago. She was accompanied home by her sister, Mrs. H. P. Marsh who will visit here for several days.

ASLEEP AT THE WHEEL.

A Reason For Some of the Automobile Accidents at Night.

Frequently when there is an accident, where the automobile runs off the road, hits an obstruction or is upset, the driver or some other occupant of the car or the reporter says that "the steering gear gave way." Yet it is safe to venture that it is not the real reason for the accident. What often happens is that the driver goes to sleep.

In a report of an accident some time ago the driver frankly said he went to sleep and the next thing he knew he was under the car, which was thrown against an abutment. The soporific effect of driving an auto at night for several hours is really responsible for more accidents than defective construction. The constant vibration of the steering wheel, the continuous noise of the machine and the drone of the wind have the same effect as does the buzz of an electric fan on most folk.

Before the driver realizes it he is getting drowsy. The wheel is held more and more loosely. Gradually the car takes the line of least resistance, aided by the slacking (but not totally abandoned) control of the driver. The next thing he knows he is off the road. Sometimes the car overturns. Sometimes the driver escapes, together with the occupants of the car. Oftentimes the dereliction results in injury or death.

If more drivers realized the danger of not keeping awake there would be fewer accidents. At least this is the opinion of experienced drivers.—Chicago Journal.

HOW WARS START.

An Ocean Cable Would Have Averted Our Conflict of 1812.

Had there been an ocean telegraph in 1812 there might not have been a war with England at that time. Five days after President Madison signed the declaration of war England recalled the orders in council which had provoked it. The purpose to recall the orders was unknown in America, while in England nothing was known of the war declaration when the orders were revoked. This war's most important battle, that of New Orleans, was fought fifteen days after the treaty of peace had been signed at Ghent. It was this battle which made Jackson a popular idol and gave him the presidency.

The first step in the Crimean war was Russia's invasion of Moldavia, months before diplomatic rupture with England and France.

The firing on Fort Sumter, which started the war between the states, is a familiar story.

The first shot of the Franco-Prussian war was by a French soldier on guard at Strasbourg bridge a day or two before Napoleon III. formally took the field.

The attempt on Bismarck's life as he was walking down the Unter den Linden on May 7, 1896, rallied public sentiment to him and his policy and from a dramatic standpoint may be said to have been the first shot in the Austro-Prussian war.

The blowing up of the Maine was the first blow in the Spanish-American war, which ended Spanish possessions in the new world.—Charlton Bates Strayer in Leslie's.

When Novels Were Really Long.

Though William de Morgan wrote some of the longest novels of recent times, his efforts were conspicuous by self compared with the works of some of the seventeenth century romancers. Mlle. de Scudery's once famous story, "Le Grand Cyrus," for instance, fills five folio volumes of 600 pages each in the English translation, and her contemporary, La Chaperonde, was even more diffuse, his "Cleopatre" running into twenty-three volumes. The leisurely method of the early novelists is well illustrated in "Parthenissa," by Roger Boyle, earl of Orrery, in which the eight hundredth page finds the two chief characters still engaged in the process of introducing themselves to each other, begun on page one.

Where the Guns Kick Head.

Duck shooting at an altitude of 14,000 feet, on the Junia pampa, along the shore of the lake of that name, is a sport that can be followed in Peru. Very peculiar effects are noted in this rarefied region, probably the highest altitude for this sport in the world. The guns kick viciously, and the shot does not scatter promptly, making long shots successful. This phenomenon is due to the lack of density of the air, which is only about eight pounds to the square inch against fifteen at sea level. Another interesting fact is that the ducks have no fishy taste, as fish do not exist in this altitude.

"The Almighty Dollar."

The idea of the forceful phrase "the almighty dollar" is much older than the time of Washington Irving. Ben Jonson's "Epistle to Elizabeth, Countess of Rutland," commences thus:

Whilst that for which all virtue now is sold, And almost every vice, almighty gold.

She Spoke.

"When I got home at 2 this morning my wife met me in the hall, and for a full minute she regarded me in silence."

"At length she spoke?"

"Yes; also she spoke at length."—Boston Transcript.

DUTCH TROOPS GUARD GERMAN BANK IN CHINA

Chinese Troops Not Allowed to Enter Legation Quarter Where Bank Is Located—Much Confusion for a Time.

Peking, Oct. — (Correspondence of The Associated Press)—Troops of the Dutch Legation as custodian of the German interests here for a time guarded the Deutsch Asiatische Bank against soldiers from the Legations of the Entente powers who were sent to seize the property of the bank when China declared war against Germany and Austria. Chinese troops were not allowed to enter the legation quarter where the bank was located, as this section is international territory and when the Entente Legations attempted to act there was confusion.

The Dutch Legation insisted that any authority to enter the banking property must come from the Chinese foreign office. A French sequestrator who represented that he had been selected by the Chinese government to take over the bank were denied admission to it until he presented proper credentials.

Meanwhile, for hours a mixed crowd of Entente troops, including Sikhs from the British legation, Italian marines, Annamese from the French legation, Japanese and Cossacks, stood guard outside the gates of the bank compound. Dutch soldiers held their ground inside the gates and a crowd of curious Chinese watched the little international comedy at a safe distance.

After hours of delay satisfactory papers were obtained and representatives of the various legations present were admitted to the bank where the records were closed with seals of the French, Chinese and Dutch governments. Dutch guards remained on duty at the entrance and the other guards returned to their various legations.

The American legation did not send a guard. It received no request direct from the Chinese foreign office, and the legation took the position that the Dutch were entrusted with German interests and were quite competent to take over the bank with out the presence of other nationals.

Holland had taken the German Legation over at the time China severed diplomatic relations with Germany in March and the Dutch flag already flew over it. As the Chinese did not see fit to intern German and Austrians and to take over enemy buildings and business territory there was no evidence of war preparations outside the legation quarter.

EXTREME CRUELTY OF TURKISH OFFICER

Cairo, Oct. — One of the reasons for the revolt of the Arab tribes in Asiatic Turkey against Turkish rule was the conduct of Abdul Kader a Turkish officer of the Arabian forces attached to the Turkish army, whose cruelty toward the Arabs made his name widely known and hated as that of certain Red Indian chiefs in the colonial days in America. El Kowkab, an Arabian newspaper published here gives as an instance of his manner toward his Arab soldiers, the following:

"At seven o'clock one morning Abdul Kader was prowling about the camp when he came upon an Arab officer, a first lieutenant named Mustaba Effendi, at morning prayer. He passed in front of him and as he did not receive the military salute he stopped and poured out a volume of curses and shameful abuse. In his terror the officer interrupted his prayer, turned to the commander and said:

"Your excellency, I was at prayer, and that was the reason why I failed to salute you."

"Abdul Kader roared with rage and said, 'You, do you love God?' The Arab answered, 'Yes, sir I love and worship God, and I must do my devotions to Him as I do my military duties.'

"Abdul retorted, 'Since you love God so much, I am quite ready to send you off to him', and drawing his revolver he fired three shots, killing him on the spot. So he died a martyr to his devotion to the faith, in a camp of the Turks, who profess to be engaged in a holy war."

C. M. COONS HAS FINE COUNTRY HOME

Residence on State Road is Comfortable and Commodious One—Mr. Coons Extensive Hog Raiser, Preferring the Jersey Red Durocs.

One of the farmers of Morgan county who is fixed to live comfortably is C. M. Coons, whose home is on the state road about six miles east of the city. Mr. Coons has a beautiful place containing 120 acres and his house and outbuildings all speak the thrifty, well to do tiller of the soil. He has an automobile of course, and a good place to keep it and the conveniences about the place for living are many. A large, commodious house is fitted with what is needed to make life desirable.

Mr. Coons said it is known as the

John Huff farm and was settled by that family in 1835, and he himself has been there some twenty years. Mr. Coons carefully rotates his crops, generally raising but two of corn in succession and then to small grain, wheat or oats, followed with clover. He likes white oats and Boone county or Johnson white corn for seed. The latter he thinks is rather easier laid down by wind than some other varieties. He has had the best success with Turkey Red hard wheat, and while he does not like the beards still, on the whole, he uses it in preference to other kinds of seed.

Then there is another use to which he puts his white corn and that is in making old fashioned hominy. He doesn't have the old time ashes to make the lye for removing the hull so he used diluted Lewis lye which answers every purpose. In cool weather they prepare it and put it away in crocks and it is very good eating in winter. Mr. Coons is a bit proud of the ability his wife has in preparing hominy, nor is that the only old time accomplishment the worthy lady has for she can knit and weave with the old fashioned loom all right if occasion offers.

Prefers Jersey Red Durocs.
Mr. Coons raises lots of hogs and prefers the Jersey Red Durocs for all around purposes. He likes individual pens which he can take to any part of the farm. He thinks much of clover pasture for hogs under almost any condition, as it helps very well to balance the ration. For his sows he uses oats and slop of middlings, being careful not to give too much heating food to them. When wheat was cheaper he used lots of that for hog feed. One reason why he likes the Jersey Reds is because they are industrious and thrive under adverse circumstances. He endeavors to have his sows farrow in March and September and weans the pigs early and at 8 and 10 months he has them weigh 200 to 250 pounds. He is a firm believer in sheep which live on what would hardly be missed and says the one main argument against the creatures is in four letters—dogs. More drastic laws should be made to prevent this evil for there is money in sheep.

He says he would be tempted to favor a law compelling all owners of fruit trees to have them sprayed properly for he thinks it would pay well.

MRS. DEFRADES SLIGHTLY INJURED

Mrs. Johanna DeFrades, an aged resident of this city whose home is on Allen avenue, was painfully injured Sunday morning when she was struck by a street car near Voorhes street. Mrs. DeFrades was on her way to church accompanied by her son, John Fernandes, and was at Voorhes street waiting for the car. She was apparently standing too near the tracks for when the car came from the east she was knocked to the ground.

The injured woman was at once removed to Passavant hospital where her injuries were given attention by Dr. C. E. Black. The injuries tho painful are not of a serious nature.

John Shelton of the south part of the county were attending to affairs in the city yesterday.

MINISTERS URGE SABBATH OBSERVANCE

To the Editor:

Dear Sir,
The increasing disregard of Sabbath in our city as evidenced by public work in our streets, open shops, social calls, festivities, and numerous automobile parties, these and many other deplorable facts would seem to indicate that we are in grave danger of losing that priceless heritage, the Christian Sabbath. Aside from the claims of the church we need its change and rest.

What is our condition?

It is overwork everywhere.

Even our amusements must be intense excitement, new sensations. We burn the candle at both ends. Americans have no Sabbaths—no rests at all. And yet nowhere in Sunday more of a necessity than in the United States. No nation needs the Fourth Commandment more rigidly enforced than this nation of active, energetic, ambitious, busy people. A well kept Sunday perfectly meets the wants of the modern man. It offers him just the rest which he requires. There is no relaxation so complete as that which presents thought and interests utterly different from those with which a man is commonly engaged and the loftier those thoughts the better.

And the higher those interests the more benefit to the mind and body. The faded faculties never enjoy such perfect rest as when another set of faculties are called into play and exercise, while the tired ones sleep in calm. We must live our lives under the laws God has given. A man may be very certain that he gains, in the long run, in power, by the length of life, in force of brain, by using the Sunday for the end for which God gave it. The atmosphere of worship of praise and benediction, of lofty and grand truths and interests is a real and refreshing atmosphere to the world-weary brain and heart. The church of Jesus Christ is closely bound up with the observance of the Lord's Day, its worship, its rest, its peace and its spiritual uplift; to lose it would be to endanger the church herself. Men and women let us rally to its observance, we all need its blessed influence in these days of stress and trial. Let us individually resolve to give the Christian Sabbath our loyal, consistent and unswerving recognition and support and let us see to it that the civic authorities enforce the laws regarding it.

BALL FANS RECALL ROWLAND'S DAYS HERE

Manager of Chicago White Sox Had Jacksonville Team in Hand in 1910—Quick Promotion for a "Bush League" Manager.

Jacksonville baseball fans have more than ordinary interest in the World's series this year because Clarence Rowland, manager of the White Sox American league team formerly managed a team in this city.

It was in 1910, the year after Jacksonville was kicked out of the Central Association, that Rowland came to Jacksonville. He had been managing ball teams then for several years, having managed the team at Dubuque, his home city. The year before he came to Jacksonville he was manager of the Aberdeen, Wash., club.

Rowland had a great team in the Northern association as the new league was called. There were other classy teams in it also and good ball was played. However the jumps were bad and some of the towns were always known as dead ones from a baseball standpoint and the league died a natural death in the middle of the season.

Rowland then went back to his first love the Dubuque team in the Three Eye league. He always kept that team well up in the race and in 1914 went to Peoria as manager and put his city on the top in the pennant race. He had signed with Peoria for the season of 1915 when Comiskey began to cast about for a manager, Jimmy Calahan having been tried and found wanting.

Comiskey much to the astonishment of the baseball world signed Rowland. It was an unheard of thing to do, bringing up a "Bush League" manager and putting him at the head of one of the leading teams in the American league. Rowland had never played professional baseball and disaster was predicted for him and a short career in the big show.

The first year the White Sox finished in the first division and in 1916 were runnerup to the champion Red Sox. The team seemed to lack the punch despite all of the money Comiskey spent for players. However, this year with practically the same team Rowland got them going and they landed at the top. This despite the fact that Weaver

sustained a broken finger at the most critical period of the race. The Sox demonstrated their game-ness and ability in the crisis and came thru with flying colors.

Now Rowland's team is in the thick of the fight for the greatest honors in baseball and look to be the ultimate winners, as they already have two games to their credit. Many people have not regarded the White Sox as really a great team. In fact some of the best critics have gone so far as to say that the best team did not win the flag in the American league this year.

These same critics also said that McGraw had gathered the best team that had represented the National league in a World's series, except the Boston Braves of 1914, in the last decade. So with this granted the White Sox must be better than they were given credit for because so far they have outclassed the Giants.

Much also has been said of the generalship of McGraw and his great knowledge of baseball. This is admitted but one also must give Clarence Rowland credit for being a general. He is always on the coaching lines and personally directs his team's attack and defense. There is no gainsaying that he must be given the lion's share of the credit for the showing of the White Sox. Rowland's many personal friends here will pull for him to win the world's title.

ANDRE & ANDRE RANGE EXHIBITION CLOSED.

The special copper clad range exhibition at the store of Andre & Andre in this city has closed with a liberal record of bona fide sales and a lot more of favorable impressions made on numerous callers open to conviction but not ready to buy. The superiority of the range was patent to all who saw it and sales were easily made. Mr. Phalen has gone to Peoria and Mr. McLaughlin has gone to the Andre & Andre branch at Bluffs where he will conduct a demonstration and special sale.

PROMINENT WAVERLY CITIZEN DIED SUNDAY

William Witherbee Taken Suddenly—Funeral Arrangements Not Yet Completed—Women to Discuss War Work—Other Waverly Items.

Waverly, Oct. 8.—Wm. Witherbee, aged 60 years, died suddenly at 5:30 o'clock Sunday morning at his home seven miles southwest of Waverly. He had been ailing for several days threatened with typhoid fever, but had been about his farm work as usual. About 9 o'clock Saturday evening he was stricken with a hemorrhage and passed away a few hours later. Deceased was for three years proprietor of the general store at Centerville and one year ago moved to the farm where he resided at the time of his death, which was also the place of his birth. He was married ten years ago to Miss Lena Wood of Waverly, who with five children survive. They are, John, Elizabeth, Clarence, Lawrence and Harland, all residing at home. Arrangements for the funeral have not been made.

A meeting will be held at the Baptist church Wednesday afternoon at 2 o'clock to discuss war work for women. Miss Elson Barnes and Mrs. A. L. Adams of Jacksonville will speak at the meeting.

Mr. and Mrs. W. T. Dale of Alton came Saturday for a visit with Mrs. Dale's mother, Mrs. Anna Swift.

Mr. and Mrs. Wm. Crumpler left Saturday for a few days' visit with their son, Rollo and family. They were accompanied by Mr. and Mrs. Wm. Wells of Franklin.

Mr. and Mrs. Everett Burnett spent Sunday at the home of Mr. and Mrs. Joshua Hubbs at Prentice. Walter Martin has moved to the residence property he recently purchased of Wilbur Rawson.

Charles Dikis went to Springfield Saturday to accompany home his grandmother, Mrs. Amanda Dikis, who has been at the hospital for several weeks.

Dr. E. W. Crum has bought the Martz property and will move there this week.

Mr. and Mrs. Fred Parkinson spent Sunday at the home of Mr. and Mrs. Louis Foster at Auburn.

Miss Ursula Fawcett returned to her home in Jacksonville Sunday, having spent a few days as guest of Miss Ruth Teal.

Mrs. John Beatty returned Sunday from a week's visit at the home of Mr. and Mrs. William Miller at Maccon.

Miss Lelia Clayton of Virden was a guest of friends here Sunday.

Miss Eunice Huth of Palmyra spent Sunday and Monday at the home of her parents, Mr. and Mrs. Frank Huth.

Kodak In Camp

From reveille to taps, each hour will bring something new into the life of every young soldier. New surroundings, new habits, new faces, and new friendships will make for him a new world—a world full of interest to him today and a world upon which he will often dwell in memory when peace has come again. And this new world of his offers Kodak opportunities that will relieve the tedium of camp routine at the time and will afterward provide what will be to him and his friends the most interest of all books—his Kodak album.

The parting gift, a Kodak. Let us show you.
